What are the barriers to care?

- Shortage of dentists in tribal communities
- Lack of Resources
- Coverage and Medicaid Acceptance
- Cost of care
- Historical Trauma
- Lack of culturally competent providers
- Geographic isolation
- Delivery system—Lack of a strong safety-net
Indian Health Service Overview

- General U.S. Population has an average of 1,500 Patients per Provider/Dentist
- Typical I.H.S Provider/Dentist availability is 2,800 Patients per Provider

Typical I.H.S Provider is expected to service 86% more patients than the U.S. Dental average

Imagine when Primary Care could only be provided by an MD, i.e. no Physicians Assistants or Nurse Practitioners

In the 21st Century, the Primary Care System is reliant on Mid-Level Providers

Dental Practices are operating under the similar model that Medical was under in the 1970’s

Swinomish Medical Clinic has operated with Mid-Levels for 37 years!
Tribal Health System Needs: (Are these your needs too?)

- Effective prevention efforts
- Culturally competent care
- Basic restorative services
- Locally provided
- Meeting our needs intelligently will lead to efficiencies

Trisha Patton, DHAT, taking x-rays on patient
Dental Health Aide Therapy Programs

- Expand access to consistent, routine, high quality oral health care in tribal communities;
- Grow the number of AI/AN oral health care providers available to tribal communities;
- Bring culturally competent care into tribal communities;
- Create a more efficient and effective oral health team that can meet the needs of the tribal communities;
- Establish cost effective solutions to oral health challenges into tribal communities;
- Bring care where it is needed most.

Chelsea Shoemaker, DHAT, with Patient
A Solution: Dental Health Aide Therapists

- Model began in the 1920s
- Dental therapists practice in 54 countries, including the US, Canada, England, Australia, New Zealand and The Netherlands
- Under supervision of dentists, dental therapists can practice in remote settings where there is need for additional provider capacity
  - Evidence shows care provided by dental therapists is high quality, cost effective and safe
  - History of providing routine and preventive care in community settings
Alaska’s Dental Therapists

- 35 dental therapists increased access to care for over 45,000 Alaska Natives
- Provide culturally competent care
- Produce high patient satisfaction rates
- Reduce amount of emergency care
- Increase preventive care
- Create jobs and generate economic impact
  - Created 76 full time jobs per year with total personal income of $4.4 million
  - Net economic effect of program is $9.7 million in Rural Alaska

**YKHC Service Distribution: 2009 vs. 2014**

- **Emergency Care**: 45% (2009), 35% (2014)
- **Preventative**: 40% (2009), 25% (2014)
- **Basic**: 15% (2009), 20% (2014)
Dental Therapists

- Primary oral health care professionals
- Basic clinical dental treatment and preventive services
- Multidisciplinary team members
- Advocate for the needs of clients
- Refer for services beyond the scope of the DHAT’s practice
2 Year DHAT Training Program

- Competency reached with 2 years for the <50 Billable Procedures
- Curriculum fits a 2 year structure
- Training costs lower
- Graduates return to their Communities sooner
- Cost of social commitments for trainees lower
Alaska DHAT Scope of Practice and training

- **Dental Health Aid Therapist (DHAT)**

  <50 Billable Procedures

- **DDS**

  >500 Billable Procedures

**Alaska DHAT training program information:**

First year: 40 weeks  
Second year: 39 weeks  
Total: 79 weeks (3160 hours)

DHAT Scope of Practice

- All ages
- General Supervision
- Part of a team of dental and medical providers

Diagnosis and Treatment Planning, Prevention, Basic Hygiene, Radiographs, Infection Control, Restorative, Pediatric, Extractions, Community Projects, Clinic Management, Equipment Repair and Maintenance, Referral Process
Financial Impact of Expanding the Dental Team

According to a May, 2013 Community Catalyst study on the economic viability of dental therapists in Alaska and Minnesota, dental therapists cost their employers less than 30 cents for every dollar of revenue they generate.

Total Revenue Generated by Advanced Dental Therapists and Dental Therapists in Minnesota - green
Dental Health Aide Therapists in Alaska – blue

http://www.communitycatalyst.org/doc_store/publications/economic-viability-dental-therapists.pdf; Report conducted by Dr. Frances M. Kim, May 2013
Summary: Dental team production with integration therapist

- 2011: Average production of team is $280.72/hr – Before Dental Therapists were introduced
- 2012: Average production of team is $298.09/hr - With Dental Therapists; Average production of DT/ADT is $340.35/hr
- 2013: Average production of team is $336.87 per hour – With Dental Therapists; Average production of DT/ADT is $365.04/hr
- 2014: Average DT/ADT production is $365/hr

DTs are vital to the financial viability of CDS; other clinics, such as private practice dentist Dr. John Powers, are seeing similar productivity and financial impact
Children’s Dental Services Results: Financial Impact

**DDS Cost** $75/hr

**ADT Cost** $45/hr

ADT provides restorative care to 1,500 low-income children and pregnant women per year

**Total Cost Savings using ADT Public Health Model:**
- $1,200/week
- $62,400/year

Cost-Benefit Analysis based on 1 ADT providing services covered under the ADT statute for 40 hours/week in a public health dental clinic.
Responding to Misinformation

**THE EVIDENCE IS CLEAR:**
Dental Therapists Are Good for Native Communities

- **85%** of the care dental therapists provide is routine & preventive.
- **$93** a year for dental therapists’ malpractice insurance.
- **400 hours** working directly with a dentist before they are licensed.
- **Review of 1,100 scientific studies** found dental therapists provide high quality care.
Old I.H.S. Provided Dental Trailer
Swinomish Indian Tribal Community
Swinomish Dental Clinic after Self Governance
-Exercising Sovereignty
Why a DHAT makes sense for Swinomish

- Procedure review for FY 2012, 2013 and 2014 for Swinomish Clinic showed that over 50% of procedures and services could have been provided by trained dental therapist under the Alaska model.

- Analysis shows that the same procedures could have been covered with 50% personnel cost savings by replacing dentist time with dental therapist time.

- Analysis shows that dentist time could have been significantly re-oriented to more complex dentist-only procedures, i.e. such as prosthodontic, advanced restorative and surgical procedures, etc.
Swinomish worked for 6 years with the Northwest Portland Area Indian Health Board and a coalition of community advocates, public health organizations and dental professionals to pass a bill in the Washington Legislature authorizing dental therapists to practice in Washington in order to meet the requirement of the IHCIA limiting language.

Swinomish worked for the past 2 years to pass a **Tribal Specific DHAT Authorization Bill**

Before 2016, no bill got out of House or Senate Committees in Washington State, blocked by legislators working on behalf of the Washington State Dental Association.

Swinomish determined it has the power and obligation to address oral health systems change by exercising its Tribal Sovereignty.
Sovereignty in Action: Step 1

Invest in our new workforce model

- Swinomish has entered into an Agreement with the Alaska Native Tribal Health Consortium to provide DHAT Training to Swinomish members

- Swinomish is recruiting students from their community for the upcoming DHAT class that starts this summer
Sovereignty in Action: Step 2

Build Tribal Regulatory Framework

- Swinomish created a Division of Licensing, bringing together existing Tribal licensing and regulatory functions:
  - including licensing/regulating child care services and on-Reservation businesses
  - Swinomish also self-certifies its mental health providers and regulates admission to practice in Swinomish Tribal Court

- Swinomish adopted the first Tribal Dental Health Provider Licensing Code to license and regulate Dentists, Hygienists and Dental Therapists

- This is a quintessential exercise of Tribal sovereignty: regulating Tribal providers who are employed by the Tribe, paid with Tribal funds, working in a Tribal clinic built on Tribal land, and improving the health of Tribal community members
Sovereignty in Action: Step 3

License Qualified Providers

License # 15-TDH-02
Office of Planning and Community Development
Division of Licensing
TRIBAL DENTAL HEALTH PROVIDER LICENSE

BE IT KNOWN THAT: Janice L. Tillotson, Dental Hygienist, is hereby
LICENSED
To practice as a dental hygienist within the exterior boundaries of the Swinomish Indian Reservation, effective the issue date specified herein, for the period specified herein.

In consideration of granting this license, and by acceptance thereof, the licensee expressly warrants that all applicable federal and Swinomish Tribal laws and regulations will be fully complied with in all respects. Upon failure to meet the above laws and regulations, the licensee is subject to forfeiture, suspension or revocation of this license and such further action as the law and facts may justify.

Issue Date: 12/16/15

Signature of Issuing Officer:
Swinomish Indian Tribal Community

License # 15-TDH-01
Office of Planning and Community Development
Division of Licensing
TRIBAL DENTAL HEALTH PROVIDER LICENSE

BE IT KNOWN THAT: Damari B. Kennedy, dental therapist, is hereby
PROVISIONALLY LICENSED
To practice services as a dental therapist within the exterior boundaries of the Swinomish Indian Reservation, effective the issue date specified herein, for the period specified herein.

In consideration of granting this license, and by acceptance thereof, the licensee expressly warrants that all applicable federal and Swinomish Tribal laws and regulations will be fully complied with in all respects. Upon failure to meet the above laws and regulations, the licensee is subject to forfeiture, suspension or limitation of this license and such further action as the law and facts may justify.

Issue Date: 12/16/15

Signature of Issuing Officer:
Swinomish Indian Tribal Community

License # 15-TDH-01
Office of Planning and Community Development
Division of Licensing
TRIBAL DENTAL HEALTH PROVIDER LICENSE

BE IT KNOWN THAT: Rachael R. Hogan, DDS, is hereby
LICENSED
To practice dentistry within the exterior boundaries of the Swinomish Indian Reservation, effective the issue date specified herein, for the period specified herein.

In consideration of granting this license, and by acceptance thereof, the licensee expressly warrants that all applicable federal and Swinomish Tribal laws and regulations will be fully complied with in all respects. Upon failure to meet the above laws and regulations, the licensee is subject to forfeiture, suspension or revocation of this license and such further action as the law and facts may justify.

Issue Date: 12/16/15

Signature of Issuing Officer:
Swinomish Indian Tribal Community
On January 4, 2016, Daniel Kennedy, an experienced DHAT, joined the Swinomish Dental Team in making history by becoming the first Tribally licensed Dental Therapist providing services in the lower 48 states.
Sovereignty in Action: Step 5

Secure dental therapy model for all Tribes who want it:

- Continue to build support for legislation in Washington State to allow all Tribes to use their IHS resources towards dental therapy model in their clinics

- Build support in Washington DC to repeal the limitation in the Indian Health Care Improvement Act on expansion of DHATs by IHS outside Alaska, or to amend IHCIA to recognize and respect Tribal as well as State authority to license Dental Health Providers

- Successfully defend any legal, political, or public relations battle that Sovereignty in Action may inspire

- Demonstrate success of program using a regional and national dental therapy evaluation plan being coordinated by the Northwest Portland Area Indian Health Board
Northwest Portland Area Indian Health Board
Indian Leadership for Indian Health
