Completing a Tribal Strategic Plan for Health and Health Equity: Planning, Process and Outcome

Jamie Ishcomer, MPH, MSW
Public Health Project Coordinator
National Indian Health Board
June 23, 2016
National Indian Health Board

Purpose: To advocate on behalf of all federally recognized American Indian and Alaska Native Tribes to ensure the fulfillment of the trust responsibility to deliver health and public health services as assured through treaties, and reaffirmed in legislation, executive orders and Supreme Court cases.

Mission Statement: One Voice affirming and empowering American Indian and Alaska Native Peoples to protect and improve health and reduce health disparities.
Learning Objectives

By the end of the webinar, participants will be able to:

1. Explain the process for developing a strategic plan for health and health equity.
2. Describe two pros and two cons of using an external party to assist with the construction of a Tribe's strategic plan for health and health equity.
3. Develop a plan for engaging external parties to assist with strategic planning.
Brief Overview

PUBLIC HEALTH ACCREDITATION
Public Health Accreditation

The measurement of a health department’s public health performance and systems against a set of national standards based on the 10 essential services of public health.

• Voluntary
• Public Health Accreditation Board
Areas of Functionality that Accreditation looks at:

- Leadership
- Planning
- Community engagement
- Customer focus
- Workforce development
- Evaluation and quality improvement
- Governance
What Accreditation Means to Tribal Public Health

• **Responsibility and visibility.** Implementing accreditation standards can support Tribal governments in their efforts to improve their community’s health.

• **Performance feedback and quality improvement.** The accreditation assessment process provides valuable, measurable feedback to public health programs on their strengths and areas for improvement.

• **Valuable partnerships.** The accreditation process encourages strong, active partnerships between public health practitioners, stakeholders and community members in Indian Country.

• **Reducing health disparities.** The accreditation process promotes building and enhancing public health services so that the same level of high quality public health services is available to everyone.
7 Steps of Accreditation

1. Strategic Plan
2. Pre-Application
3. Application
4. Documentation Selection & Submission
5. Site Visit
6. Accreditation Decision
7. Annual Reports
8. Reaccreditation
STRATEGIC PLANNING
Purpose

**Internal** plan that shapes and guides what the health department does and why it does it; it sets forth the department’s vision, mission, guiding principles and values, and strategic priorities; and describes measurable and time-framed goals and objectives.

- The strategic plan **should include steps to implement portions of the community health improvement plan as well as other strategic issues for the department.**
- Internal to the health department, although may have been **developed with input from partners.**
Elements Required by PHAB

- Planning Process to develop the organization’s strategic plan
  - Membership of the strategic planning group
  - Strategic planning process steps
- Strategic Plan Includes:
  - Mission, Vision, Guiding Principles/values
  - Strategic Priorities
  - Goals and Objectives with measurable and time-framed targets
  - Consideration of key support functions required for efficiency and effectiveness
  - Identification of external trends, events or factors that may impact community health or the health of the department
  - Assessment of the health department strengths and weaknesses
  - Link to the health improvement plan and quality improvement plan
STRATEGIC PLANNING FOR HEALTH EQUITY
Equality vs Equity

Equality = SAMENESS
Equality is about SAMENESS, it promotes fairness and justice by giving everyone the same thing.

BUT it can only work IF everyone starts from the SAME place, in this example equality only works if everyone is the same height.

Equity = FAIRNESS
Equity is about FAIRNESS, it’s about making sure people get access to the same opportunities.

Sometimes our differences and/or history can create barriers to participation, so we must FIRST ensure EQUITY before we can enjoy equality.
**A Framework for Health Equity**

**Socio-Ecological**

- **Discriminatory Beliefs (ISMS)**
  - Race
  - Class
  - Gender
  - Immigration status
  - National origin
  - Sexual orientation
  - Disability

- **Institutional Power**
  - Corporations & other businesses
  - Government agencies
  - Schools

- **Social Inequities**
  - Neighborhood conditions
    - Social
    - Physical
    - Residential segregation
  - Workplace conditions

**Medical Model**

- **Risk Factors/Behaviors**
  - Smoking
  - Nutrition
  - Physical activity
  - Violence
  - Chronic S.

- **Mortality**
  - Infant mortality
  - Life expectancy

Objectives should be SMART E
S Specific – specify what change is to be achieved by whom
M Measureable – specify change by how much; ensure that data will be available to measure progress
A Achievable – objectives that are feasible for this agency within the time frame
R Realistic – objectives should align with strategic priorities, mission, vision and values
T Time-phased – specify a time frame when the objective will be met or measured
E Equitable – Ask if reaching your objective will improve health equity or is there a possibility that the objective may contribute to health inequity? Will the objectives result in positive change(s) in or for the population that is most in need?

**Strategic Priority**

**Goal**

Pursuing more Traditional and upstream Practices with Staff and Community that work towards the elimination of health disparities and promote equity.

**Long-term Objective**

Educate staff about traditional practices and cultural sensitivity, including but not limited to: ageism, sexism, racism, and ableism to promote use in health department treatment practices and education programs.

By February 1, 2017, implement a biannual collection of staff and patient surveys relating to the implementation and staff knowledge, and the increased capacity to reduce health disparities.

UTILIZING EXTERNAL PARTIES FOR STRATEGIC PLANNING
Potential Pros of External Parties

• Experienced facilitators
• Skilled expertise
• Neutral convener
• Quick turnaround
  • Typically 2-3 day “retreat”
• Fresh perspectives
Potential Cons of External Parties

• Cost
• Time to familiarize with the organization, community served, etc.
• Cultural competence
• Added barrier to coordinator with another’s schedule and availability
• Quick turnaround
  • Typically 2-3 day “retreat” – away from daily duties
Key Questions – Ask Yourself

• Do you have the internal capacity?
  • Staff Expertise
  • Time
  • Resources

• Do you have the flexibility to hire an external party?
  • Funding – Grant vs Tribally Funded

Key Questions – Ask External Party

• How much experience do you have facilitating health department strategic planning?
  • How much experience do you have facilitating Tribal health department strategic plans?
• Do you have a list of references or past clients?
• How much does your service cost?
• What services will be provided?
  • What outcomes should I expect?
• Timeframe
  • How much time in person vs remotely?
  • How accessible will you be throughout the contract?
• What documentation must I provide prior to the session(s)?
  • Community health assessment, community health improvement plan, previous strategic plan
Learning Objectives

By the end of the webinar, participants will be able to:

1. Explain the process for developing a strategic plan for health and health equity.

2. Describe two pros and two cons of using an external party to assist with the construction of a Tribe's strategic plan for health and health equity.

3. Develop a plan for engaging external parties to assist with strategic planning.
