  - Logistics
  - Submission
- FAQ
- Questions?

# Background & Current Project

- NIHB 2009 Tribal Public Health Profile – only national level information on Tribal public health capacity
- NIHB 2018 Tribal Public Health Profile – will provide parity for Indian Country information needs with states, cities and counties
  - Profile of State Health Department Data - Association of State and Territorial Health Officials
  - Profile of Local Health Department Data Health - National Association of County and City Health Officials
- Funded by CDC

# Benefits to Tribes & Tribal Organizations

- Identification of Tribal public health system:
  - Needs
  - Priorities
  - Opportunities for technical assistance
- Establish baseline information that can be used to gauge progress over time

# Scan Administration

- Administered online through Qualtrics survey web platform ([www.Qualtrics.com](http://www.Qualtrics.com))
- An email containing a link to the scan will be sent from NIHB on November 30<sup>th</sup> to Directors of:
  - Tribal Health Departments
  - Tribal Public Health Departments
  - Tribal Health Organizations/  
Consortiums

# FAQs

- Do I need any log-in information in order to fill out the scan?
  - No log-in information is required to access the scan
  - Each respondent will receive a unique, trackable link to the scan

# FAQs

- Can I get a Word version of the scan?
  - Yes—please contact NIHB to request a hard copy of the scan, [svalliere@nihb.org](mailto:svalliere@nihb.org)
- Who do I contact with questions about the scan?
  - Stephen Valliere, 202-507-4082  
[svalliere@nihb.org](mailto:svalliere@nihb.org)

# FAQs

- What about public health work that occurs outside of my department?
  - Respondents completing the scan should take into account any and all public health work occurring within the Tribal community

# FAQs

- How long will completing the scan take?
  - The estimated response time based on pilot testing is 60 minutes
- How will the data and my information be shared?
  - NIHB will house all the data on a secure server.
