Guidance on Wearing Masks for Fully Vaccinated People

Are you Fully Vaccinated?

People are considered fully vaccinated:

- 2 weeks after their second dose of the Pfizer or Moderna vaccines, or
- 2 weeks after a single-dose vaccine of Janssen’s Johnson & Johnson vaccine

You are NOT fully vaccinated if you do not meet these criteria regardless of your age. NIHB encourages everyone to continue taking all precautions until you are fully vaccinated and adhere to Tribal and state public health orders and mask mandates.

Fully vaccinated people can resume activities without wearing a mask or physically distancing, except where required by Tribal, federal, state, local, or territorial laws, rules, and regulations, including local business and workplace guidance.

Do I Have to Wear a Mask for Face Covering?		
Fully Vaccinated	Example Activities	Not Fully Vaccinated
 Safest	Walk, run, wheelchair roll, or bike outdoors with members of your household	 Safest
 Safest	Attend a small, outdoor gathering with fully vaccinated family and friends	 Safest
 Safest	Attend a small, outdoor gathering with fully vaccinated and unvaccinated people	 Safest
 Safest	Dine at an outdoor restaurant or event with friends from multiple households	 Less Safe
 Safest	Attend a crowded, outdoor event, like a live performance, community gathering or sports event	 Least Safe
