Select one of the following:

- 1 YOUR CLINIC NAME
- 2 OTHER
- 3 All facilities

Select one or more facilities to use for calculating patient volume: 1 YOUR CLINIC NAME
<choose your clinic here – if you have satellite clinics where the EP practices, include them as well>

Select one of the following:

- 1 YOUR CLINIC NAME * **<the star means it has already been selected>**
- 2 OTHER
- 3 All facilities

Select one or more facilities to use for calculating patient volume: **<if you do not need to make an additional selections, just hit ENTER here to go on to the next prompt>**

The SEL report determines if INDIVIDUAL Eligible Professionals have met the minimum patient volume requirements on their own patient encounters during a continuous 90-day period in order to be eligible for the Medicaid EHR Incentive Program (Meaningful Use EHR Incentive Program).

The GRP report may be used for EPs who wish to use encounters of all providers at a facility to meet the minimum patient volume requirements during a continuous 90-day period in order to be eligible for the Medicaid EHR Incentive Program (Meaningful Use EHR Incentive Program). When used, all EPs at the facility must use the Group Method. All provider encounters for the entire facility are included in the calculation.

Select one of the following:

- SEL Encounter method for each EP
- GRP Group method for facilities

Select report type: SEL Encounter method for each EP **<if you want to use the Group method, select that here instead>**

Select NEW PERSON NAME: **<Type in the provider you want to use>**

Select NEW PERSON NAME: **<You may enter more than one provider to run at a time, just keep selecting new providers at this prompt>**

For EPs, the Participation year is a calendar year.

Note: The qualification year is the year prior to the participation year.

Patient Volume is calculated on encounters that occurred in the qualification year, which is the year prior to the participation year. To view volume for the current year, select next year as the participation year.

Enter the Participation year for this report: 2012 **<This is very important to remember that the participation year is the year you are working on right now for your provider. The qualification year is the year before. If you are trying to qualify your provider for participation in 2012, then you put 2012 as the participation year and the system will then automatically only look at patient volume data for 2011.>**

Report will be run for a 90-day reporting period. The 90-day period may be automatically calculated or user may select a specific start date.

The automated calculation will return the first 90-day period in the 2011 year in which required patient volumes are met or the 90-day period with the highest volume percentage (first occurrence in the year).

Select one of the following:

- A Automated 90-Day Report
- B Specific 90-Day Report Period
- C User specified Report Period

Enter selection: A Automated 90-Day Report **<Note this can take a while to run. If you know the 90 day time period you want to use, you can choose option B. Most people aren't going to know which time period they want to use, so most choose option A and let the computer find the first 90 day period in the year in which the EP hits 30%. This one will also tell you if there are no 90 day periods in which the 30% is met.>**

Select one of the following:

- S Summary Report *<This is the most common one>*
- A Abbreviated Summary Report *<This is just a really brief look>*
- P Patient List *<This is more for trouble shooting>*

Select Meaningful Use Performance Reports Option: MU1P Stage 1 MU Performance Report-EP

*** IHS 2011 Stage 1 Meaningful Use Performance Report for EPs ***

This report determines if primary and secondary providers have met the minimum requirements to achieve Meaningful Use. The report identifies the 15 Core Performance Measures and 10 Menu Set Performance Measures designated by the CMS Final Rule for Stage 1, July 28, 2010.

In order to achieve Meaningful Use, a provider must meet all 15 Core Performance Measures simultaneously. They must also meet 5 of the 10 Menu Set Performance Measures simultaneously, one of which must be a designated Public Health Performance Measure. Public Health measures are identified within the report by an asterisk.

Press Enter to Continue: <enter>

***** IMPORTANT NOTICE *****

This report does not verify CMS Medicare or Medicaid EHR Incentive Program eligibility. Please speak to your Area Meaningful Use Coordinator for guidance in determining eligibility.

Do you wish to continue to report? Y// YES

A full report will include an itemized listing of all performance measures and will include a summary report. The summary report excludes itemized data. The full report will produce approximately 40 pages of data for each provider. Please take this into consideration when running print jobs, ensuring dedicated time on your printer and sufficient paper supplies to complete your job.

Select one of the following:

- F Full Report *<Use this more for trouble shooting>*
- S Summary Report *<You'll usually just want this one>*

Enter Selection: F// Summary Report

Report may be run for a 90-day or a one year period.

Select one of the following:

- A January 1 - December 31 *<use when you need a full year>*
- B User Defined 90-Day Report

Select Report Period: B User Defined 90-Day Report

Enter Start Date for the 90-Day Report (e.g. 01/01/2011): 1.1.12 (JAN 01, 2012)
<use whatever date you need>

Historical data from the 90-days immediately preceding the currently selected report period can be included.

IMPORTANT NOTICE: Including previous period data may significantly increase run time.

Do you wish to include the previous period? Y// NO *<include if you think it would be helpful>*

Select one of the following:

- IP Individual Provider
- SEL Selected Providers (User Defined)
- TAX Provider Taxonomy List

Enter Selection: IP Individual Provider *<choose as you see fit – you can run for multiple providers at one time, for the same time period>*

Enter the name of the provider for whom the Meaningful Use Report will be run.

Enter PROVIDER NAME: YOUR PROVIDER

Select one of the following:

- I Include ALL Patients
- E Exclude DEMO Patients
- O Include ONLY DEMO Patients

Demo Patient Inclusion/Exclusion: E// Exclude DEMO Patients

Several Stage 1 Meaningful Use Performance Measures require an attestation of Yes or No for each provider for which the report is being run.

Do you wish to continue? **Y// ES** <**IMPORTANT: This is where you are telling the report that each of these Y/N attestation measures were met. You should probably have other documentation on hand to back up these answers – see Audit File tip sheet for more information on that**>

Clinical Decision Support: Were any of the following configured during the EHR reporting period: National Clinical Reminders or Health Summary Supplements which include Diabetes Supplement, Pre-Diabetes Supplement, Anti-Coagulation Supplements, Immunization Forecasting and Health Maintenance Reminders?

Does YOUR PROVIDER attest to this? **Y// ES**

Exchange of Key Clinical Information: Was at least one test performed during the EHR reporting period of the certified EHR technology's capacity to electronically exchange key clinical information?

Does YOUR PROVIDER attest to this? **Y// ES**

Privacy/Security: Per 45 CFR 164.308 (a)(1), was a security risk analysis conducted or reviewed during the EHR reporting period with security updates implemented and identified deficiencies corrected as part of a risk management process of the certified EHR technology?

Does YOUR PROVIDER attest to this? **Y// ES**

Clinical Quality Measures: Were ambulatory quality measures reported to CMS during the EHR reporting period?

Does YOUR PROVIDER attest to this? **Y// ES**

Patient List: Was at least one Patient List Report generated during the EHR reporting period?

Does YOUR PROVIDER attest to this? **Y// ES**

Timely Electronic Access to Health Information: Was the Personal health Record (PHR) installed during the EHR reporting period?

Does YOUR PROVIDER attest to this? **Y// NO** <**This is not available to anyone yet**>

Immunization Registries*: Was at least one test performed during the EHR reporting period of the the certified EHR technology's capacity to submit electronic data to an immunization registry and follow-up submission if the test was successful? Note: If none of the immunization registries to which the EP submits information has the capacity to receive the information electronically, then this measure would not apply.

Select one of the following:

Y YES

- N NO
- X No Registry Available

Does YOUR PROVIDER attest to this: Y// ES

Syndromic Surveillance*: Was at least one test performed during the EHR reporting period of the the certified EHR technology's capacity to submit electronic syndromic surveillance data to a public health agency and follow-up submission if the test is successful? Note: If none of the public health agencies to which an EP submits such information has the capacity to receive the information electronically, then this measure would not apply.

Select one of the following:

- Y YES
- N NO
- X No Registry Available

Does YOUR PROVIDER attest to this: Y// ES

Facility Name: YOUR CLINIC
Report Period: Jan 01, 2012 to Mar 30, 2012

Report for:
YOUR PROVIDER

RUN TIME (H.M.S): 0.0.37

This report determines if providers have met the minimum requirements to achieve Meaningful Use. The report identifies the 15 Core Performance Measures and 10 Menu Set Performance Measures designated by the CMS Final Rule for Stage 1, July 28, 2010.

In order to achieve Meaningful Use, a provider must meet all 15 Core Performance Measures simultaneously. They must also meet 5 of the 10 Menu Set Performance Measures simultaneously, one of which must be a designated Public Health Performance Measure. Public Health measures are identified within the report by an asterisk.

Definitions used in this report:

REPORT PERIOD:

This report can be run to display a specified calendar year or a specified 90-day period. For demonstrating Meaningful Use through the Medicare EHR Incentive Program, the reporting period for the first year is any continuous 90-day period. In subsequent years, the EHR reporting period is the entire year. Under the Medicaid program achieving Meaningful Use and receiving an incentive payment may be awarded for merely adopting, implementing or upgrading to certified EHR technology. Consequently, there is no Medicaid reporting period for year one. The second participation year, during which Meaningful Use must be demonstrated, the reporting period is 90 days and all subsequent reporting periods are a full year.

CURRENT/PREVIOUS PERIOD:

Values in the Current Period column indicate percentage values for Performance Measures that were numerically calculated during the reporting period. The user was prompted to answer a Yes or No question for attestation measures that could not be verified through RPMS. These measures display Yes/No values in the Current Period.

Previous Period values display the time frame immediately preceding, and the same length as, the selected reporting period. For example, if a user selects to run the report for October 1, 2011 through December 31, 2011, the Previous Period values displayed are for July 1, 2011 through September 31, 2011. Attestation values for the Previous Period will display "N/A."

MEASURE EXCLUSION:

Indicates the conditions under which the provider is entirely exempt from having to meet the performance measure.

DENOMINATOR EXCLUSIONS:

Describes specific data, or types of data, that are to be ignored when computing the count of items included in the denominator.

STAGE 1 MEASURE:

Each objective has a minimum performance threshold to meet - or "Performance Measure." The measure or target value displayed indicates the minimum percentage required by CMS for Stage 1.

EP EP Clinical Quality Measures Report Stage 1
HOS Hospital Clinical Quality Measures Report Stage 1

Select Meaningful Use Clinical Quality Measure Reports Option: EP EP Clinical Q

IHS Meaningful Use Clinical Quality Measure Report
Report on all Patients regardless of Community of Residence

This will produce a Clinical Quality Measure Report for one or more measures for a period you specify. You will be asked to provide: 1) the length of the reporting period , 2) the desired start date for your reporting period and, 3) the baseline period to compare data to.

Select one of the following:

- 1 90-Days
- 2 One Year *<use this one when you need 1 year>*

Enter the reporting period length for your report: 1 90-Days

Enter the reporting period start date.

Enter Date: 1.1.12 (JAN 01, 2012) <enter whatever date you need here – IMPORTANT: make sure the start date is the same as your Performance Measure Report start date>

Enter the Baseline Year to compare data to.

Use a 4 digit year, e.g. 1999, 2000

Enter Year (e.g. 2000): 2011 (2011)

The date ranges for this report are:

Report Period: Jan 01, 2012 to Mar 30, 2012

Previous Year Period: Jan 01, 2011 to Mar 31, 2011

Baseline Period: Jan 01, 2011 to Mar 30, 2011

Which Eligible Provider: YOUR PROVIDER

Select one of the following:

- CM Core Measures
- ACM Alternate Core Measures
- MSM Menu Set Measures
- SEL Selected Measures (User Defined)

Which set of Measures should be included in this report: SEL Selected Measures

<The reason I chose the SEL option is that this is a little bit of a "short cut" that allows you to get the Core, Alternate Core (if needed), and Menu Measures all in one report>

PERFORMANCE MEASURE SELECTION Jun 26, 2012 08:48:14 Page: 1 of 3

IHS Meaningful Use Clinical Quality Measures

* indicates the clinical quality measure has been selected

Select Action:+// S Select Measure

Which item(s): (1-45): 1,2,3,4,?,?,? **<To select the Core Measures, choose items 1,2,3, and 4 (the ones with a (C)). Then, select 3 more that are marked with and (M) – any 3 of these that you want. You only need to use the Alt Core (marked with (A) if one of your Core CQMs comes up with a denominator of zero. You won't know if that is the case until you run the report the first time. I would suggest choosing the core measures, knowing that is it likely you'll just be able to use those. If you see on your report that one or more of the core measures has a denominator of zero, then go back and run the report again, but choose one or more of the Alt Core measures to substitute for your zero denominator core measure(s).>**

Key Numbers

This print out can be a little cluttered – here are some tips on interpreting it:

Denominator 1 – use the number after the excluded patients have been removed – in this case = 58 is your actual denominator

Denominator 2 = 193 (same as above, remove the excluded patients)

(Not all CQMs will have multiple denominators nor will they all have excluded patient numbers)

Numerator is the number of patients meeting the measure. In this example = 23 and 50 for their respective patient populations.

You can ignore the patients not meeting the measure, in this example, the 35 and 143.

<Each measure may have 1 or more targeted populations depending on the specific measure. If more than one patient population exists, all values must be reported. Example is this measure, you'll need to report it for patients 65 and over as well as patients 18-64.>
