*NOTE: For regulatory actions taken prior to January 1, 2013, please see the Regulation Review and Impact Analysis Report (RRIAR), v. 2.12 dated December 31, 2012. For regulatory actions taken from January 1, 2013, to December 31, 2013, please see the RRIAR, v. 3.12, dated December 31, 2013. For regulatory actions taken from January 1, 2014, to December 31, 2014, please see the RRIAR, v. 4.12, dated December 31, 2014.*

The purpose of the Regulation Review and Impact Analysis Report (RRIAR) is to identify and summarize key regulations issued by the Centers for Medicare and Medicaid Services (CMS) pertaining to Medicare, Medicaid, CHIP, and health reform<sup>1</sup> that affect (a) American Indians and Alaska Natives and/or (b) Indian Health Service, Indian Tribe and tribal organization, and urban Indian organization providers. Furthermore, the RRIAR includes a summary of the regulatory analyses prepared by the National Indian Health Board (NIHB)<sup>2</sup>, if any, and indicates the extent to which the recommendations made by NIHB were incorporated into any subsequent CMS actions.

In addition to this cover page, the report consists of three tables as well as a **recently added health reform index** and number reference guide –

- Table A provides a status report on the RRIAR itself, listing the regulations included in the RRIAR to date, and the components of the analysis provided under each. The regulations are organized in four sections: I. Medicaid; II. Medicare; III. Health Reform; and IV. Other.
- Table B lists key regulations issued by CMS, due dates for comments, a synopsis of the CMS action, and a summary of the analysis, if any, prepared by NIHB.
- Table C identifies the recommendations made by NIHB pertaining to each regulation, if any, and evaluates the extent to which the recommendations made by NIHB were incorporated into subsequent CMS actions.
- The RRIAR Index: Health Reform lists key terms (further sorted by subtopic, when applicable) found in regulations implementing health reform, with the corresponding RRIAR entry numbers and page numbers shown. The accompanying RRIAR Number Reference Guide: Health Reform provides a listing, by RRIAR entry number, of the notice type, short title, and issuing agency or agencies for each entry.

For regulations issued over the September 2010 through December 2012 period, please refer to the archived RRIAR v.2.12 dated December 31, 2012. For regulations issued over the January 2013 through December 2013 period, please refer to the archived RRIAR v.3.12 dated December 31, 2013.

1.I.	<b>EHR Incentive Program-- Stage 3</b>  <b>ACTION: Proposed Rule</b>  <b>NOTICE:</b> Medicare and Medicaid Programs; Electronic Health Record Incentive Program--Stage 3  <b>AGENCY:</b> CMS	CMS-3310-P	<u>Issue Date:</u> 3/30/2015  <u>Due Date:</u> 5/29/2015  <u>NIHB File</u>  <u>Date:</u> <u>Date of</u> <u>Subsequent</u> <u>Agency</u> <u>Action, if any:</u>		<b>SUMMARY OF AGENCY ACTION:</b> This Stage 3 proposed rule would specify the meaningful use criteria that eligible professionals (EPs), eligible hospitals, and critical access hospitals (CAHs) must meet to qualify for Medicare and Medicaid electronic health record (EHR) incentive payments and avoid downward payment adjustments under Medicare for Stage 3 of the EHR Incentive Programs. It would continue to encourage electronic submission of clinical quality measure (CQM) data for all providers where feasible in 2017, propose to require the electronic submission of CQMs where feasible in 2018, and establish requirements to transition the program to a single stage for meaningful use. Finally, this Stage 3 proposed rule would change the EHR reporting period so that all providers would report under a full calendar year timeline with a limited exception under the Medicaid EHR Incentive Program for providers demonstrating meaningful use for the first time. These changes together support broader CMS efforts to increase simplicity and flexibility in the program while driving interoperability and a focus on patient outcomes in the meaningful use program. <a href="http://www.gpo.gov/fdsys/pkg/FR-2015-03-30/pdf/2015-06685.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-03-30/pdf/2015-06685.pdf</a>  <b>SUMMARY OF NIHB ANALYSIS:</b>

The 2015 Edition also would establish the capabilities and specify the related standards and implementation specifications that Certified EHR Technology (CEHRT) would need to include to, at a minimum, support the achievement of meaningful use by eligible professionals (EPs), eligible hospitals, and critical access hospitals (CAHs) under the Medicare and Medicaid EHR Incentive Programs (EHR Incentive Programs) when these programs require the use of such edition. <a href="http://www.gpo.gov/fdsys/pkg/FR-2015-03-30/pdf/2015-06612.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-03-30/pdf/2015-06612.pdf</a>  <b>SUMMARY OF NIHB ANALYSIS:</b>

The second demonstration established a prior authorization program for Power Mobility Device (PMD) claims in certain States.</i></p> <p>For the Recovery Audit Prepayment Review Demonstration, CMS and its agents request additional documentation, including medical records, to support submitted claims. As discussed in more detail in Chapter 3 of the Program Integrity Manual, additional documentation includes any medical documentation, beyond what appears on the face of the claim that supports the item or service billed. For Medicare to consider coverage and payment for any item or service, the information submitted by the provider or supplier (e.g., claims) must include supporting documentation from patient medical records. When conducting complex medical review, the contractor specifies documentation they require in accordance with Medicare rules and policies. In addition, providers and suppliers can supply additional documentation not explicitly listed by the contractor. Prior authorization allows submission for review of the applicable documentation that supports a claim before delivery of the item or rendering of the service. CMS has begun this demonstration in California, Florida, Illinois, Michigan, New York, North Carolina and Texas based on beneficiary address as reported to the Social Security Administration and recorded in the Common Working File (CWF). For the demonstration, the (ordering) physician or treating practitioner can complete a prior authorization request and submit it to the appropriate DME MAC for an initial decision. The supplier also can submit the request on behalf of the physician or treating practitioner. Under this demonstration, the submitter will submit to the DME MAC a request for prior authorization and all relevant documentation to support Medicare coverage of the PMD item.</p> <p>With this emergency FR notice, CMS announces its plans to expand the demonstration from the seven aforementioned States to 12 new States, bringing the total number of participating States to 19; however, the original demonstration requirements will remain the same in all 19 States. This form initiates the process of obtaining a decision as to whether they meet the conditions of coverage as a portable X-ray supplier. It also promotes data reduction or introduction to, and retrieval from, the Certification and Survey Provider Enhanced Reporting (CASPER) by the CMS Regional Offices (ROs).</p> <p>The State survey agency uses CMS-1882 to provide data collected during an onsite survey of a supplier of portable X-ray services to determine compliance with the applicable conditions of participation and to report this information to the Federal Government. The form primarily serves as a coding worksheet designed to facilitate data reduction and retrieval into the ASPEN system at the CMS Regional Offices. The form includes basic information on compliance (i.e., met, not met, explanatory statements) and does not require any descriptive information regarding the survey activity itself. CMS has the responsibility and authority for certification decisions based on supplier compliance with the applicable conditions of participation. CMS has access to the information needed to make these decisions only through the use of information abstracted from the survey report form.</p> <p><b>SUMMARY OF NIHB ANALYSIS:</b> No comments recommended.</p> <p><b>SUMMARY OF SUBSEQUENT AGENCY ACTION:</b> CMS on 1/30/2015 issued an extension of this PRA request with no changes.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2015-01-30/pdf/2015-01777.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-01-30/pdf/2015-01777.pdf</a></p>

4.I.	<p><b>Ambulatory Surgical Center Quality Reporting Program</b></p> <p><b>ACTION:</b> Request for Comment</p> <p><b>NOTICE:</b> Ambulatory Surgical Center Quality Reporting Program</p> <p><b>AGENCY:</b> CMS</p>	CMS-10530	<p><u>Issue Date:</u> 11/17/2014</p> <p><u>Due Date:</u> 1/16/2015</p> <p><u>NIHB File Date:</u> None</p> <p><u>Date of Subsequent Agency Action, if any:</u> Issued new request 1/30/2015</p> <p><u>Due Date:</u> 3/2/2015</p>		<p><b>SUMMARY OF AGENCY ACTION:</b> <i>Type of Information Collection Request:</i> <u>New collection</u>; <i>Title:</i> Ambulatory Surgical Center Quality Reporting Program; <i>Use:</i> CMS quality reporting programs promote higher quality, more efficient health care for Medicare beneficiaries. CMS has implemented quality measure reporting programs for multiple settings, including for ambulatory surgical centers (ASCs). Section 109(b) of the Tax Relief and Health Care Act of 2006 (TRHCA) amended section 1833(i) of the Social Security Act (the Act) by re-designating clause (iv) as clause (v) and adding new clause (iv) to paragraph (2)(D) and by adding new paragraph (7). Section 1833(i)(2)(D)(iv) of the Act authorizes, but does not require, the HHS Secretary to implement the revised ASC payment system "in a manner so as to provide for a reduction in any annual update for failure to report on quality measures in accordance with paragraph (7)." Section 1833(i)(7)(A) of the Act states that the HHS Secretary can provide that any ASC failing to submit quality measures in accordance with paragraph (7) will incur a 2.0 percentage point reduction to any annual increase provided under the revised ASC payment system for such year. Sections 1833(t)(17)(C)(i) and (ii) of the Act require the HHS Secretary to develop measures appropriate for the measurement of the quality of care furnished in outpatient settings.</p> <p>Section 3014 of ACA modified section 1890(b) of the Act to require CMS to develop quality and efficiency measures through a "consensus-based entity." To fulfill this requirement, CMS formed the Measure Applications Partnership (MAP) to review measures consistent with these requirements. In implementing this and other quality reporting programs, CMS seeks to support National Quality Strategy goals of health for individuals, better health for populations, and lower costs for health care.</p> <p>CMS uses this information to direct contractors, including Quality Improvement Organizations (QIOs), to focus on particular areas of improvement and to develop quality improvement initiatives. CMS makes this information available to ASCs for their use in internal quality improvement initiatives. Most importantly, Medicare beneficiaries, as well as to the general public, can use this information to assist them in making decisions about their health care.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-11-17/pdf/2014-27137.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-11-17/pdf/2014-27137.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b> No comments recommended.</p>

A key component of the registration process requiring data collection involves verifying agent/broker licensure status, as well as any issuer appointments. Agents/brokers will enter basic identifying information on the Exchange Portal during the initial registration phase. After completing registration successfully completed, agents/brokers will move to CMS LMS to access and complete required training and exams. CMS will use the user names and zip codes that agents/brokers provide during training to record their training history through CMS LMS and communicate training results with the Exchange Portal. This PRA request solely reviews the technical process for a broker to 1) register and 2) provide an online attestation to calculate the burden of complying with the broker paperwork requirements. A related CCIO guidance document (see 7.r.) reviews the involvement of brokers in Exchange activities.</p> <p><b>SUMMARY OF SUBSEQUENT AGENCY ACTION:</b> CMS on 5/17/2013 issued a new version of this PRA request. CMS received three relevant comments in response to the 60-day FR notice published on 2/7/2013 (78 FR 9056). Specifically, one commenter requested a process that would allow Web-brokers to enroll individuals without reporting individual issuer appointments, and CMS made this revision to the registration process. CMS also received some questions about how the training process will work. CMS confirmed that agents and brokers will need to register for the FFE only once and that the agency will host the training program, as opposed to individual issuers. As a result of the comments, CMS modified both the registration process and simplified how agents and brokers will participate in the Exchanges to make them align more closely with how issuers, agents, and Web-brokers currently conduct business.  <a href="http://www.gpo.gov/fdsys/pkg/FR-2013-05-17/pdf/2013-11811.pdf">http://www.gpo.gov/fdsys/pkg/FR-2013-05-17/pdf/2013-11811.pdf</a></p> <p>CMS on 3/6/2015 issued an extension of this PRA request.  <a href="http://www.gpo.gov/fdsys/pkg/FR-2015-03-06/pdf/2015-05166.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-03-06/pdf/2015-05166.pdf</a></p> <p>No comments recommended.</p>

Additional proposed requirements appear in a proposed rule titled, "Patient Protection and Affordable Care Act; HHS Notice of Benefit and Payment Parameters for 2016" (2016 Payment Notice proposed rule), CMS-9944-P (see 89.h.), published on 11/26/2014.</p> <p>CMS expects issuers to consult all applicable regulations, in conjunction with the final version of this Letter, to ensure full compliance with the requirements of ACA. Throughout the plan year, QHPs might have to correct deficiencies identified in CMS post-certification activities, as a result of the investigation of consumer complaints or oversight by state regulators or by CMS, or as a result of an industry-standard internal compliance and risk management program. QHP issuers in the FFMs also might have to meet other requirements for plan years beginning in 2016, as indicated in future rulemaking.</p> <p>CMS welcomes comments on this proposed guidance. To the extent that this guidance summarizes policies proposed through other rulemaking processes not yet finalized, such as the rulemaking process for the 2016 Payment Notice proposed rule, stakeholders should comment on those underlying policies through the ongoing rulemaking processes and not through the comment process for this Letter. Please send comments on other aspects of this Letter to <a href="mailto:FFEcomments@cms.hhs.gov">FFEcomments@cms.hhs.gov</a> by 1/12/2015. Additionally, this rule finalizes two technical changes that reinstate previously approved but erroneously removed regulation text sections.  <b>SUMMARY OF NIHB ANALYSIS:</b> Tribal organizations did not file comments on the proposed rule.  This final rule addresses one Indian-specific issue. In this rule, CMS finalized two new provisions related to efficient dispensing of medications in long-term care facilities (§423.154(a)(2) and (a)(3)). Previously, §423.154(c) waived all requirements under §423.154(a) for I/T/U pharmacies. However, this final rule revises the language of §423.154(c) to <b>clarify that the new provisions do apply to I/T/U pharmacies.</b>  See attached analysis for a review of additional issues. Issuers supported by the CO-OP program will offer at least one qualified health plan at the silver level of benefits and one at the gold level of benefits in the individual market State Health Benefit Exchanges (Exchanges). CO-Ops will offer at least two-thirds of policies or contracts open to individuals and small employers. CO-OPs will use any profits generated to lower premiums, improve benefits, improve the quality of health care delivered to their members, expand enrollment, or otherwise contribute to the stability of coverage offered. By increasing competition in the health insurance market and operating with a strong consumer focus, the CO-OP program will provide consumers more choices, greater plan accountability, increased competition to lower prices, and better models of care, benefiting all consumers, not just CO-OP members.</p> <p>The CO-OP program will provide nonprofits with loans to fund start-up costs and State reserve requirements in the form of Start-up Loans and Solvency Loans. An applicant can apply for (1) joint Start-up and Solvency Loans; or (2) only a Solvency Loan. Planning Loans seek to help loan recipients determine the feasibility of operating a CO-OP in a target market. Start-up Loans seek to assist loan recipients with the many start-up costs associated with establishing a new health insurance issuer. Solvency Loans seek to assist loan recipients with meeting the solvency requirements of States in which the applicant seeks to be licensed to issue qualified health plans.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-09-05/pdf/2014-21180.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-09-05/pdf/2014-21180.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b></p> <p><b>SUMMARY OF SUBSEQUENT AGENCY ACTION:</b> CMS on 11/21/2014 issued a revision of this PRA request. <a href="http://www.gpo.gov/fdsys/pkg/FR-2014-11-21/pdf/2014-27640.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-11-21/pdf/2014-27640.pdf</a></p> <p>CMS on 1/30/2015 issued a revision of this PRA request. <a href="http://www.gpo.gov/fdsys/pkg/FR-2015-01-30/pdf/2015-01790.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-01-30/pdf/2015-01790.pdf</a></p>

This rule would offer States new flexibility in providing necessary and appropriate services to elderly and disabled populations. In particular, this rule would not require the eligibility link between HCBS and institutional care that exists under the Medicaid HCBS waiver program. This rule would describe Medicaid coverage of the optional State plan benefit to furnish HCBS and receive Federal matching funds.  This proposed rule also would amend Medicaid regulations consistent with the requirements of ACA, which amended the Act to provide authority for a 5-year duration for certain demonstration projects or waivers, at the discretion of the HHS Secretary, when they involve individuals dually eligible for Medicaid and Medicare benefits. In addition, this rule would provide an additional limited exception to the general requirement that payment for services under a State plan go directly to the individual practitioner providing a service when the Medicaid program serves as the primary source of reimbursement for a class of individual practitioners. This exception would allow payments to other parties to benefit the providers by ensuring health, welfare, and training. Finally, this rule would amend Medicaid regulations to provide home and community-based setting requirements of ACA for the Community First Choice State

Organization seeking the accommodation must maintain the self-certification/notification in a manner consistent with the record retention requirements under section 107 of the ERISA, which generally requires maintenance of records for six years. EBSA Form 700 serves as the form used by eligible organizations for their self-certification.</p> <p>The interim final regulations augment the final regulations and revise the EBSA Form 700 ICR in light of the Supreme Court interim order in connection with an application for an injunction in <i>Wheaton College v. Burwell</i> (2014) (Wheaton order). Specifically, the interim final regulations continue to allow eligible organizations to notify an issuer or third-party administrator using EBSA Form 700, as set forth in the July 2013 final regulations. In addition, the interim final regulations permit an alternative process, consistent with the Wheaton order, under which eligible organizations could notify the HHS Secretary that they will not act as the plan administrator or claims administrator with respect to, or contribute to the funding of, coverage of all or a subset of contraceptive services. The notification must include information sufficient to identify the plan, plan type (including whether it is a church plan within the meaning of ERISA section 3(33)), and the identity and mailing addresses of any third-party administrators.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-08-27/pdf/2014-20253.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-08-27/pdf/2014-20253.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b></p> <p><b>SUMMARY OF SUBSEQUENT AGENCY ACTION:</b> DoL on 12/11/2014 issued an extension of this PRA request.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-12-11/pdf/2014-29060.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-12-11/pdf/2014-29060.pdf</a></p> <p>DoL on 2/27/2015 issued an extension of this PRA request with no changes.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2015-02-27/pdf/2015-04094.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-02-27/pdf/2015-04094.pdf</a></p>

Section 1302(d)(2)(A) of ACA stipulates that calculation of AV must occur based on the provision of essential health benefits (EHB) to a standard population. The statute groups health plans into four tiers: bronze, with an AV of 60 percent; silver, with an AV of 70 percent; gold, with an AV of 80 percent; and platinum, with an AV of 90 percent. The EHB Final Rule allows a <i>de minimis</i> variation of +/- 2 percentage points of AV for each tier.</p> <p>The AV Calculator represents an empirical estimate of the AV calculated in a manner that provides a close approximation to the actual average spending by a wide range of consumers in a standard population. This draft document details the specific methodologies used in the AV calculation.</p> <p>The revised version of this draft document incorporates updates to account for the draft 2016 AV Calculator. The first part of this draft document provides background that includes an overview of the regulation that allows HHS to make updates to the AV</p>

For the second part of the document, CCIIO provides a detailed description of the development of the standard population and the AV Calculator methodology. The first section details the data and methods used in constructing the continuance tables used to calculate AV in combination with the user inputs. The second section describes the AV Calculator interface and the calculation of actuarial value based on the interface and the continuance tables.</p> <p><a href="http://www.cms.gov/CCIIO/Resources/Regulations-and-Guidance/Downloads/Draft-2016-AVC-Methodology-MASTER-for-112114.pdf">http://www.cms.gov/CCIIO/Resources/Regulations-and-Guidance/Downloads/Draft-2016-AVC-Methodology-MASTER-for-112114.pdf</a></p> <p>The draft 2016 AV Calculator is available at <a href="http://www.cms.gov/ccio/resources/regulations-and-guidance/index.html">http://www.cms.gov/ccio/resources/regulations-and-guidance/index.html</a>.</p> <p><b>SUMMARY OF NIHB ANALYSIS:</b> No Indian-specific or tribal-specific elements are referenced in the AV calculator methodology. In particular, on page 29, there is a discussion of the ability to use the AV Calculator to determine if silver-level cost-sharing variations offered for individuals with incomes at or below 250% FPL (73%, 87%, 94%) meet the AV targets. There is not a similar discussion of the "zero cost-sharing variation" or the "limited cost-sharing variation." In other regulations (CMS-9964-F), CMS assigned an AV of 100% to the zero cost-sharing variation and an AV of 87% or 94% to the limited cost-sharing variation, depending on the metal tier selected.</p> <p>It may be warranted to ask CMS if not including the two Indian-specific cost-sharing variations in the page 29 discussion (and in the AV Calculator) was an oversight-- and therefore limits the usefulness of the AV calculator--or was intentional. If, for example, the zero cost-sharing variation was included in the AV Calculator, issuers might be able to check their cost-sharing protection design against the AV Calculator to confirm that it meets the 100% AV standard.</p> <p>NOTE: Given that the limited cost-sharing variation was assigned an AV of 87%, it is uncertain whether the AV Calculator would work for this cost-sharing variation, as the lower AV level for the limited cost-sharing variation must be a factor of enrollees not securing a referral (which would reduce the cost-sharing protections experienced by the enrollee) rather than the plan having some cost-sharing requirements for certain services.</p>

The Departments have become aware of health insurance issuers selling supplemental products that provide a single benefit. At least one issuer has characterized this type of coverage as an excepted benefit. These issuers claim that the products meet the criteria for supplemental coverage to qualify as an excepted benefit outlined in guidance and seek to fill the gaps of primary coverage in the sense that they provide a benefit not covered under the primary group health plan. This guidance answers the question of whether health insurance coverage that supplements group health coverage by providing additional categories of benefits qualifies as supplemental excepted benefits. According to this guidance:</p> <p>"It depends. The Departments' prior guidance provided an enforcement safe harbor for supplemental insurance products that are specifically designed to fill gaps in primary coverage, such as coinsurance or deductibles. In determining whether insurance coverage sold as a supplement to group health coverage can be considered 'similar supplemental coverage' and an excepted benefit, the Departments will continue to apply the applicable regulations and the four criteria indicated in the guidance discussed above. In addition, the Departments intend to propose regulations clarifying the circumstances under which supplemental insurance products that do not fill in cost-sharing under the primary plan are considered to be specifically designed to fill gaps in primary coverage. Specifically, the Departments intend to propose that coverage of additional categories of coverage would be considered to be designed to 'fill in the gaps' of the primary coverage only if the benefits covered by the supplemental insurance product are not an essential health benefit (EHB) in the State where it is being marketed.</p>

					<p>If any benefit in the coverage is an EHB in the State where it is marketed, the insurance coverage would not be an excepted benefit under our intended proposed regulations, and would have to comply with the applicable provisions of title XXVII of PHS Act, part 7 of ERISA, and chapter 100 the Code.</p> <p>We note that this standard applies to coverage that purports to qualify as an excepted benefit as 'similar supplemental coverage provided to coverage under a group health plan' under PHS Act section 2791(c)(4), ERISA section 733(c)(4), and Code section 9832(c)(4). This standard does not apply to other circumstances where the coverage may qualify as another category of excepted benefits, such as limited excepted benefits under section 2791(c)(2), ERISA section 733(c)(2), and Code section 9832(c)(2).</p> <p>Pending publication and finalization of the above proposed regulations, the Departments will not initiate an enforcement action if an issuer of group or individual health insurance coverage fails to comply with the provisions of the PHS Act, ERISA, and the Code, as amended by the Affordable Care Act, with respect to health insurance coverage that (1) provides coverage of additional categories of benefits that are not EHB in the applicable State (as opposed to filling in cost-sharing gaps under the primary plan); (2) complies with the applicable regulatory requirements and meets all of the criteria in the existing guidance on 'similar supplemental coverage'; and (3) has been filed and approved with the State (as may be required under State law). As noted above, for purpose of the second criterion of the existing guidance, coverage would be considered designed to 'fill gaps in primary coverage' even if it does not include coverage of cost-sharing under the group health plan, only if the benefits are not covered by the group health plan and are not EHBs in the State. The Departments encourage States that have primary enforcement authority over the provisions of the PHS Act, as amended by the Affordable Care Act, to utilize the same enforcement discretion under such circumstances."</p> <p><a href="http://www.cms.gov/CCIIO/Resources/Fact-Sheets-and-FAQs/Downloads/Supplemental-FAQ_2-13-15-final.pdf">http://www.cms.gov/CCIIO/Resources/Fact-Sheets-and-FAQs/Downloads/Supplemental-FAQ_2-13-15-final.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b></p>

In addition, section 5000A(f)(1)(E) of the Code authorizes HHS, in coordination with the Department of Treasury (Treasury), to designate other health benefits coverage as MEC. The departments have implemented this authority both through additional designations in regulations or guidance of types of coverage as MEC, and in regulations providing for a process for applying for MEC designation under specified conditions.</p> <p>The departments also issued regulations providing for an administrative process for applying for MEC status, with eligibility for designation under this process conditioned on meeting certain standards, including compliance with "substantially all" ACA requirements. On 10/3/2013, CCIIO issued further guidance on this administrative process. The October 2013 guidance separately specified that certain types of foreign group health coverage are MEC. This guidance clarifies the existing standard of review for the MEC application process: it does not designate additional categories of MEC.</p> <p><a href="http://www.cms.gov/CCIIO/Resources/Regulations-and-Guidance/Downloads/MEC-Guidance-final-2-13-15.pdf">http://www.cms.gov/CCIIO/Resources/Regulations-and-Guidance/Downloads/MEC-Guidance-final-2-13-15.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b></p>

CMS anticipated that the methodology would be based on data and assumptions that would reflect ongoing operations and experience of BHP programs as well as the operation of the Exchanges. For this reason, the BHP final rule indicated that the development and publication of the funding methodology, including any data sources, would be addressed in a separate annual BHP Payment Notice.</p> <p>Payment rates published in draft form in this notice are expected to be finalized in February 2015 and would apply to BHP program year 2016, beginning in January 2016. (In the 3/12/2014 FR (79 FR 13887), CMS published the final payment methodology, titled "Basic Health Program; Federal Funding Methodology for Program Year 2015," that sets forth the methodology that will be used to calculate the federal BHP payments for the 2015 program year.)</p> <p>In this notice, CMS is proposing a methodology that is the same as the 2015 payment methodology, with updated values but no changes in methods.</p>

The 60-day Federal Register notice published on 12/4/2012 (77 FR 71801), pertained to the 2012 MLR Annual Reporting Form and Instructions, and the comment period closed on 2/4/2013. CMS received a total of 4 public comments on 25 specific issues regarding the notice of the revised MLR PRA package. Most of the comments addressed clarifying the instructions or correcting typographical errors, the removal of calculated cells and the ability of issuers to copy and paste data onto the form, and the inclusion of a credibility indicator for small issuers to eliminate the need for small issuers to fill out the complete MLR reporting form. CMS have taken into consideration all of the proposed suggestions and has made changes to the 2012 MLR Annual Reporting Form and Instructions. <a href="http://www.gpo.gov/fdsys/pkg/FR-2013-02-22/pdf/2013-04015.pdf">http://www.gpo.gov/fdsys/pkg/FR-2013-02-22/pdf/2013-04015.pdf</a></p> <p>CMS on 11/22/2013 issued a revision of this PRA request. Based upon experience in the MLR data collection and evaluation process, CMS has updated its annual burden hour estimates to reflect the actual numbers of submissions, rebates, and rebate notices. The 2013 MLR Reporting Form and instructions also reflect changes for the 2013 reporting year and beyond set forth in the March 2012 update to 45 CFR 158.120(d)(5) regarding aggregation of student health plans on a nationwide basis, similar to expatriate plans. In addition, the instructions address recent applicability guidance issued by the Departments of Labor and Treasury and HHS concerning expatriate plan reporting prior to plan years ending before or on 12/31/2015. In 2014, issuers likely will send fewer notices and rebate checks to policyholders and subscribers, resulting in a reduction in burden. However, the requirement to report data on student health plans will increase burden for some issuers. CMS estimates a net reduction in total information collection burden.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2013-11-22/pdf/2013-28049.pdf">http://www.gpo.gov/fdsys/pkg/FR-2013-11-22/pdf/2013-28049.pdf</a></p>

CMS received a total of 2 public comments on 12 specific issues regarding the notice of the revised MLR PRA package. Most of the comments addressed clarifying of the instructions, updates for recent guidance issuance, treatment of Student Health Plans, treatment of ACA fees, adjusted MLR standard experience aggregation, annual mini-med multipliers for credibility determination, reporting for both QIA and non-claims costs, and reporting requirements for businesses in run-off. CMS has considered all of the proposed suggestions and has revised the 2013 MLR Annual Reporting Form and Instructions.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-01-31/pdf/2014-02061.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-01-31/pdf/2014-02061.pdf</a></p> <p>CMS on 1/30/2015 issued a revision of this PRA request. Based upon experience in the MLR data collection and evaluation process, CMS has updated its annual burden hour estimates to reflect the actual numbers of submissions, rebates, and rebate notices. In addition, CMS has updated its annual burden hour estimates to reflect the additional burden related to the risk corridors data submission requirements.</p> <p>The 2014 MLR Reporting Form and instructions reflect changes for the 2014 reporting year and beyond set forth in the March 2013 update to 45 CFR part 158 regarding the MLR reporting and rebate distribution deadlines and the accounting for the transitional reinsurance, risk adjustment, and risk corridors. CMS also has revised the 2014 MLR Reporting Form and instructions to include the reporting elements required under the risk corridors data submission requirements in 45 CFR 153.530. To ensure that MEPS-IC can capture important changes in the employer-sponsored health insurance market resulting from the implementation of ACA, AHRQ researched and proposed additions to the 2014 survey questionnaires based on the provisions of the law. Many of these proposed additions involve the implementation of the Small Business Health Options Program (SHOP), through which small employers can purchase health insurance beginning in 2014. Subsequent to the publication of the 60-day FR notice on 6/21/2013, CMS has revised the data set by rewording the text.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2013-11-08/pdf/2013-26822.pdf">http://www.gpo.gov/fdsys/pkg/FR-2013-11-08/pdf/2013-26822.pdf</a></p> <p>CMS on 8/9/2014 issued a revision of this PRA request. According to CMS, OMB approved the OASIS-C1 information collection request on 2/6/2014. CMS originally planned to use OASIS-C1 to coincide with the original implementation of ICD-10 on 10/1/2014. However, on 4/1/2014, the Protecting Access to Medicare Act of 2014 (PAMA) took effect. This legislation prohibits CMS from adopting ICD-10 coding prior to 10/1/2015. Because CMS based OASIS-C1 on ICD-10 coding, it cannot implement OASIS-C1 prior to 10/1/2015. The passage of the PAMA Act left CMS with the dilemma of how to collect OASIS data in the interim.</p> <p>CMS created the OASIS-C1/ICD-9 version, an interim version of the OASIS-C1 data item set, in response to the legislatively mandated ICD-10 delay. Five items in OASIS-C1 require ICD-10 codes. In the OASIS-C1/ICD-9 version, CMS has replaced these items with the corresponding items from OASIS-C that use ICD-9 coding. The OASIS-C1/ICD-9 version also incorporates updated clinical concepts, modified item wording and response categories, and improved item clarity. In addition, the OASIS-C1/ICD-9 version includes a significant decrease in provider burden through the deletion of a number of non-essential data items from the OASIS-C data item set.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-08-29/pdf/2014-20577.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-08-29/pdf/2014-20577.pdf</a></p> <p>CMS on 11/24/2014 issued an extension of this PRA request.</p>

Many individuals once enrolled in a Medicaid managed care plan might no longer qualify for Medicaid as determined by States. Many issuers that contract with States as MCOs have become involved in offering Qualified Health Plans (QHPs) on the Federally-Facilitated Marketplace or in State-Based Marketplaces, providing coverage to previously uninsured individuals.  This guidance answers the question of whether an issuer with a Medicaid MCO contract can reach out to former enrollees who States disenrolled because of a loss of Medicaid eligibility to assist them in enrolling in health coverage offered by the issuer through the Marketplace.

OPM established the MSP Program pursuant to section 1334 of ACA. This proposed rule would clarify the approach used to enforce the applicable requirements of the ACA with respect to health insurance issuers that contract with OPM to offer MSP options. This proposed rule would amend MSP standards related to coverage area, benefits, and certain contracting provisions under section 1334 of ACA. This document also would make non-substantive technical changes.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-11-24/pdf/2014-27793.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-11-24/pdf/2014-27793.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b> This proposed rule modifies the standards for the Multi-State Plan (MSP) program codified at 45 C.F.R. Part 800 (published as a final rule on March 11, 2013, pursuant to section 1334 of the ACA) and seeks comments on certain provisions of the final rule. OPM seeks comments on the existing definition for "group of issuers," with which OPM may contract under the MSP program, and whether the definition allows for "alternative structures, such as decentralized health insurance issuers or organizations," to apply to offer MSP options as a group. OPM also proposes to replace "Multi-State Plan" with "Multi-State Plan option," which will be defined as "a discrete pairing of a package of benefits with particular cost sharing (which does not include premium rates or premium rate quotes) that is offered pursuant to a contract with OPM pursuant to section 1334 of the Affordable Care Act and meets the requirements of 45 CFR part 800." OPM further proposes to add a definition for "State-level issuer" as a health insurance issuer designated by the MSP issuer to offer an MSP option or MSP options.</p> <p>The current regulations, 45 C.F.R. § 800.104(b), allow OPM to enter into a contract with a MSP issuer even if the issuer's MSPs for a State is not statewide. However, the regulations currently require the MSP issuer to submit a plan for eventually expanding coverage throughout the State. The proposed rule would delete the requirement that an issuer submit such a plan. Instead, OPM intends to negotiate with MSP issuers to determine their MSP coverage area. This change is in response to feedback from</p>

					<p>potential MSP issuers expressing concern about “the challenges of rapidly expanding access to MSP coverage both within and across State lines.” OPM also notes that very few MSP issuers have offered MSP SHOP options in the initial years of the program and that timing and resources may prevent issuer participation, and seeks comments on when MSP issuers should be required to participate on the SHOPS.</p> <p>The proposed rule increases MSP issuer flexibility to choose to offer a package of benefits consistent with either a State’s EHB benchmark plan or any EHB benchmark plan selected by OPM on a state-by-state basis. In response to apparent confusion about the prescription drug formulary standards of OPM-selected benchmarks, OPM proposes to clarify that OPM will negotiate a formulary with MSP issuers. OPM also seeks comment on the feasibility of substituting an OPM-selected benchmark plan formulary with the formulary from the respective State’s EHB benchmark plan. The proposed rule also makes minor and technical corrections, changes, and clarifications to the application and contracting process, collection of MSP program user fees, quality assurance, compliance enforcement, termination of plan requirements, and information disclosure, and clarifies the non-renewal provisions to distinguish between non-renewal of the MSP contract and non-renewal of a State-level issuers participation in the contract as well as the considerations in evaluating prudent business practices. Finally, the proposed rule adopts a new requirement that MSP issuers provide disclosure of coverage or exclusion of certain abortion services before a consumer enrolls in an MSP option.</p> <p>Comments may be warranted regarding the proposal to delete the requirement that contracting MSP providers submit a plan for statewide coverage when its coverage in a state is not currently statewide, as this change is likely to impact coverage options in rural and underserved areas.</p> <p><b>SUMMARY OF SUBSEQUENT AGENCY ACTION:</b> This final rule implements modifications to the Multi-State Plan (MSP) Program based on the experience of the program to date. OPM established the MSP Program pursuant to ACA. This final rule clarifies the approach used to enforce the applicable standards of ACA with respect to health insurance issuers that contract with OPM to offer MSP options; amends MSP standards related to coverage area, benefits, and certain contracting provisions under section 1334 of ACA; and makes non-substantive technical changes.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2015-02-24/pdf/2015-03421.pdf">http://www.gpo.gov/fdsys/pkg/FR-2015-02-24/pdf/2015-03421.pdf</a></p>

					<p><b>NOTE:</b> Tribal organizations made 16 recommendations on the OPM rule that initially established the Multi-State Plan Program (MSPP). In a final rule issued on March 11, 2013, OPM accepted only one of these recommendations in full but either accepted in part or acknowledged by other means most of the others; the rule did not address four of the recommendations. In the Q1 FY 2015 NIHB evaluation report, a comparison of the proposed version to this latest final rule with the unaccepted recommendations previously categorized as having "potential for future actions" indicated that OPM had not addressed any of these recommendations. The proposed rule also included no Indian-specific provisions. A prior analysis of the proposed rule recommended that tribal organizations consider commenting on a proposal to delete the requirement that contracting MSP providers submit a plan for statewide coverage when their coverage in a state is not currently statewide, as this change likely would impact coverage options in rural and underserved areas; tribal organizations opted not to comment.</p> <p>In the final rule, in clarifying the status of the Program and how OPM is implementing the standards set under § 800.104, OPM deleted the standard for an MSP issuer to submit a plan to become statewide in § 800.104(b), and added a requirement that the MSP issuer service area for MSP coverage shall be greater than or equal to any service area proposed by the issuer for QHP coverage.</p> <p>OPM on 3/30/2015 issued a document to correct the final rule that appeared in the 2/24/2015 FR (80 FR 9649). 					Veterans Health Administration can start receiving hospital care and medical services under the Program no later than 12/5/2014. VA also stated that, if these veterans had a start date earlier than 12/5/2014, VA would publish a notice in the FR advising the public of the faster implementation schedule. Specifically, it proposes that the health programs operated by IHS, Tribes, tribal organizations, or UIOs (collectively, I/T/U programs) will pay the lowest of the amount provided for under the applicable Medicare fee schedule, prospective payment system, or Medicare waiver; the amount negotiated by a repricing agent, if available; or the usual and customary billing rate. IHS might use repricing agents to determine whether it would benefit from savings by utilizing negotiated rates offered through commercial health care networks. This proposed rule seeks comment on how to establish reimbursement that remains consistent across Federal health care programs, aligns payment with inpatient services, and enables IHS to expand beneficiary access to medical care.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-12-05/pdf/2014-28508.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-12-05/pdf/2014-28508.pdf</a></p> <p><b>SUMMARY OF NIHB ANALYSIS:</b> NIHB strongly supports expanding Medicare-Like Rates beyond hospital-based providers and believes this proposed rule serves as a good step toward achieving that goal. However, as drafted, this proposed rule does not provide the flexibility necessary to ensure continued access to care for AI/ANs through the Purchased/Referred Care (PRC) programs. Without a mechanism to ensure such flexibility, this proposed rule could operate to deny many AI/ANs access to critically important and life-saving services. This proposed rule requires revisions to provide the flexibility needed to ensure continued access to care while still lowering costs.</p> <p><b>SUMMARY OF SUBSQENT AGENCY ACTION:</b> IHS on 1/14/2015 issued a document that extends the comment period for the Payment for Physician and Other Health Care Professional Services Purchased by Indian Health Programs and Medical Charges</p>	See Table C.

CMS periodically evaluates and revises the CMS-855R enrollment application to simplify and clarify the information collection without jeopardizing its need to collect specific information.  <b>CMS has made very few minor revisions to the CMS-855R (Reassignment of Benefits) Medicare enrollment application (OMB 0938-1179).</b> CMS has revised two sections within the form to maintain sync with online and paper forms. The previously approved CMS-855R section 2 collected information regarding the individual practitioner reassigning benefits and section 3 collected information regarding the organization/group receiving the reassigned benefits. CMS has reversed these two sections but has not revised information or data collection within these sections. With the exception of this section reversal and adding the word "optional" to sections 4 and 5 (primary practice location and contact person information), CMS has made no other revisions. These revisions offer no new data collection in this revision package. The addition of the optional choice in sections 4 and 5 could potentially reduce the burden to providers who choose not to complete either or both optional sections.

The HCAHPS initiative allows vendors to select one mode of survey administration from four approved administration protocols (mail only, telephone only, mail-telephone mixed mode, and touch-tone IVR only). Before public reporting, CMS adjusts HCAHPS scores for the selected mode of administration, using mail administration as the comparison mode, to correct for any inflation or deflation of scores that result from mode. The six priorities include: making care safer by reducing harm caused by the delivery of care; ensuring the engagement of each individual and family as partners in their care; promoting effective communication and coordination of care; promoting the most effective prevention and treatment practices for the leading causes of mortality, starting with cardiovascular disease; working with communities to promote wide use of best practices to enable healthy living; and making quality care more affordable for individuals, families, employers, and governments by developing and spreading new health care delivery models. In 2012, CMS launched the development of the Emergency Department Patient Experience of Care Survey (EDPEC) to measure the experiences of patients (18 and older) with emergency department care. This survey will provide patient experience with care data that enables comparisons of emergency department and support for improving the quality of patient experience in the emergency department.</p> <p><a href="http://www.gpo.gov/fdsys/pkg/FR-2014-11-28/pdf/2014-28137.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-11-28/pdf/2014-28137.pdf</a></p>

Medicare covers the TMVR device only when specific conditions are met, including that the heart team and hospital submit data in a prospective, national, audited registry. The data includes patient-, practitioner-, and facility-level variables that predict outcomes such as all-cause mortality and quality of life.</p> <p>The Society of Thoracic Surgery/American College of Cardiology Transcatheter Valve Therapy (STS/ACC TVT) Registry, one registry overseen by the National Cardiovascular Data Registry, meets the requirements specified in the NCD on TMVR. The TVT Registry will support a national surveillance system to monitor the safety and efficacy of the TMVR technologies for the treatment of mitral regurgitation (MR). The data also will include the variables on the eight item Kansas City Cardiomyopathy Questionnaire (KCCQ-10) to assess health status, functioning, and quality of life. The KCCQ allows the derivation of an overall summary score from the physical function, symptoms (frequency and severity), social function, and quality of life domains.</p> <p>The data collected and analyzed in the TVT Registry will help determine if TMVR is reasonable and necessary (e.g., improves health outcomes) for Medicare beneficiaries under Section 1862(a)(1)(A) of the Social Security Act. Furthermore, data from the Registry will assist the medical device industry and the FDA in surveillance of the quality, safety, and efficacy of new medical devices to treat mitral regurgitation. For purposes of the TMVR NCD, the TVT Registry has contracted with the Data Analytic Centers to conduct the analyses. MCBS-- a continuous, multipurpose survey of a nationally representative sample of aged, disabled, and institutionalized Medicare beneficiaries sponsored by CMS--serves as the only comprehensive source of information on the health status, health care use and expenditures, health insurance coverage, and socioeconomic and demographic characteristics of the entire spectrum of Medicare beneficiaries.</p> <p>The core of the MCBS includes a series of interviews with a stratified random sample of the Medicare population, including aged and disabled enrollees, residing in the community or in institutions. Questions involve enrollee patterns of health care use, charges, insurance coverage, and payments over time. Respondents are asked about their sources of health care coverage and payment, their demographic characteristics, their health and work history, and their family living circumstances. In addition to collecting information through the core questionnaire, MCBS collects information on special topics through supplements.</p>

CMS collects data to support its mission and operations. These data include information about Medicare beneficiaries, Medicare claims, Medicare providers, and Medicaid eligibility and claims. CMS discloses the identifiable data consistent with the routine uses identified in the Privacy Act Systems of Records notices published in the Federal Register and the limitations on uses and disclosures set out in the HIPAA Privacy Rule.</p> <p>The Division of Privacy Operations &amp; Compliance (DPOC) in the Office of E-Health Standards and Services receives and reviews all requests for identifiable data. The DPOC staff and the CMS Privacy Officer review the requests to determine if legal authorization exists for disclosure of the data. If legal authorization exists, the office reviews the request to ensure that it seeks the minimal data necessary and approved for the project. Requests for identifiable data for research purposes require approval by the CMS Privacy Board. To assist the CMS Privacy Board with its review of research data requests, OIPDA has developed the Executive Summary (ES) forms. The ES collects all the information that the CMS Privacy Board needs to review and make a determination on whether the request meets the requirements for release of identifiable data for research purposes. CMS currently has three versions of the ES Form and an ES Supplement for Requestors of the National Death Index (NDI) Causes of Death Variables. The National CLAS Standards, revised in 2013, include 15 Standards that provide health and health care organizations with a blueprint for successfully implementing and maintaining culturally and linguistically appropriate services.  Despite increased recognition of the National CLAS Standards as a fundamental tool for health and health care organizations to use in their efforts to become more culturally and linguistically competent, neither the original nor the enhanced National CLAS Standards have undergone systematic evaluation in terms of public awareness, organizational adoption and implementation, or impact on health services outcomes. <b><u>A need exists to collect information from health and health care organizations to understand how and to what extent the intended audiences have utilized the National CLAS Standards.</u></b> <a href="http://www.gpo.gov/fdsys/pkg/FR-2014-09-26/pdf/2014-23000.pdf">http://www.gpo.gov/fdsys/pkg/FR-2014-09-26/pdf/2014-23000.pdf</a>

			<p><b>Families:</b> Responses from CMS to earlier comments from tribal organizations indicated a willingness to address problems with the application of cost-sharing protections for families with AI/AN and non-AI/AN members beginning with the 2016 benefit year, but the proposed rule does not address this issue; in regard to this concern, CMS should 1) implement tribal recommendations (made on CMS-9964-P in December 2012) to eliminate the potential for an increase in the aggregate premiums and to prevent shifting of out-of-pocket (OOP) liabilities to non-Indian family members or 2) provide as an administrative convenience the ability of other IHS-eligible family members to enroll in the same zero cost-sharing variation or limited cost-sharing variation in which Indian members of the family qualify.</p> <p>6. <b>AI/AN Family Tag-Along Policy:</b> At the request of tribal organizations, CCIIO issued guidance to enrollment assisters on November 15, 2014, indicating that family members of individuals eligible for the Monthly Special Enrollment Period (SEP) for Indians can enroll in Marketplace coverage with the eligible individuals, and although the proposed rule would make several modifications to SEP regulations (§155.420), it would not codify this provision; in regard to this provision, CMS should add this provision to the final rule by inserting in §155.420(d)(8) the following language (in bold): "(8) The qualified individual who is an Indian, as defined by section 4 of the Indian Health Care Improvement Act, <b>or his or her dependent</b>, may enroll in a QHP or change from one QHP to another one time per month."</p>	<p><b>Families:</b> Not accepted.</p> <p>CMS did not address this issue.</p> <p>6. <b>AI/AN Family Tag-Along Policy:</b> Not accepted.</p> <p>CMS stated, "An Indian as provided under section 4(d) of the Indian Self Determination and Education Assistance Act (ISDEAA) and section 4 of the Indian Health Care Improvement Act (IHCIA) is defined as an individual who is a member of an Indian tribe. <sup>1</sup> "Health reform" is inclusive of (1) the Patient Protection and Affordable Care Act (Pub. L. 111-148), incorporating by reference S. 1790 as reported by the Committee on Indian Affairs of the Senate in December 2009 (containing amendments to the Indian Health Care Improvement Act, IHCA), and as amended by the Health Care and Education Reconciliation Act (HCERA; Public Law 111-152) (collectively referred to as "ACA") and (2) the American Recovery and Reinvestment Act of 2009 (ARRA, Pub. L. 111-5).

<sup>3</sup> The purpose of the Regulation Review and Impact Analysis Report (RRIAR) is to identify and summarize key regulations issued by the Centers for Medicare and Medicaid Services (CMS) pertaining to Medicare, Medicaid, CHIP, and health reform that affect (a) American Indians and Alaska Natives and/or (b) Indian Health Service, Indian Tribe and tribal organization, and urban Indian organization providers. Further, the RRIAR includes summaries of the regulatory analyses prepared by NIHB and the recommendations to CMS (and other agencies) made by the Tribal Technical Advisory Group, NIHB, and/or other tribal organizations (if any). The RRIAR also indicates the extent to which these recommendations were incorporated into any subsequent CMS actions.

This Index lists key terms found in regulations implementing "health reform," which is inclusive of (1) the Patient Protection and Affordable Care Act (Pub. L. 111-148), incorporating by reference S. 1790 as reported by the Committee on Indian Affairs of the Senate in December 2009 (containing amendments to the Indian Health Care Improvement Act, IHCA), and as amended by the Health Care and Education Reconciliation Act (HCERA; Public Law 111-152) (collectively referred to as "ACA") and (2) the American Recovery and Reinvestment Act of 2009 (ARRA, Pub.
