- Table A: Listing and Status Report on Regulations Reviewed
- Table B: Summary and Analysis of Agency Notices and Regulations
- Table C: NIHB Recommendations and Evaluation of Agency's Subsequent Actions

NOTE: For regulatory actions taken prior to January 1, 2013, please see the Regulation Review and Impact Analysis Report (RRIAR), v. 2.12 dated December 31, 2012. For regulatory actions taken from January 1, 2013, to December 31, 2013, please see the RRIAR, v. 3.12, dated December 31, 2013.

The purpose of the Regulation Review and Impact Analysis Report (RRIAR) is to identify and summarize key regulations issued by the Centers for Medicare and Medicaid Services (CMS) pertaining to Medicare, Medicaid, CHIP, and health reform[1] that affect (a) American Indians and Alaska Natives and/or (b) Indian Health Service, Indian Tribe and tribal organization, and urban Indian organization providers. Furthermore, the RRIAR includes a summary of the regulatory analyses prepared by the National Indian Health Board (NIHB)[2], if any, and indicates the extent to which the recommendations made by NIHB were incorporated into any subsequent CMS actions.

In addition to this cover page, the report consists of three tables –

- Table A provides a status report on the RRIAR itself, listing the regulations included in the RRIAR to date, and the components of the analysis provided under each. The regulations are organized in four sections: I. Medicaid; II. Medicare; III. Health Reform; and IV. Other.
- Table B lists key regulations issued by CMS, due dates for comments, a synopsis of the CMS action, and a summary of the analysis, if any, prepared by NIHB.
- Table C identifies the recommendations made by NIHB pertaining to each regulation, if any, and evaluates the extent to which the recommendations made by NIHB were incorporated into subsequent CMS actions.

For regulations issued over the September 2010 through December 2012 period, please refer to the archived RRIAR v.2.12 dated December 31, 2012. For regulations issued over the January 2013 through December 2013 period, please refer to the archived RRIAR v.3.12 dated December 31, 2013.

	ACTION: Request for Comment **NOTICE:** Recognition of Pass-Through Payment for Additional (New) Categories of Devices Under the Outpatient Prospective Payment System and Supporting Regulations **AGENCY:** CMS		Due Date: 12/3/2013 NIHB File Date: Date of Subsequent Agency Action, if any: Issued extension 12/20/2013 Due Date: 1/21/2014		Payment System and Supporting Regulations; *Use*: Interested parties such as hospitals, device manufacturers, pharmaceutical companies, and physicians apply for transitional pass-through payment for certain items used with services covered in the outpatient prospective payment system (OPPS). After CMS receives all requested information, it evaluates the information to determine if justification exists for the creation of an additional category of medical devices for transitional pass-through payments. CMS might request additional information related to the proposed new device category, as needed. CMS advises the applicant of its decision and updates the OPPS during its next scheduled quarterly payment update cycle to reflect any newly approved device categories. http://www.gpo.gov/fdsys/pkg/FR-2013-10-04/pdf/2013-24250.pdf **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 12/20/2013 issued an extension of this PRA request with no changes. http://www.gpo.gov/fdsys/pkg/FR-2013-12-20/pdf/2013-30334.pdf	
3.j.	**Prior Authorization Process for Certain DMEPOS Items** **ACTION: Proposed Rule** **NOTICE:** Prior Authorization Process for Certain Durable Medical Equipment, Prosthetic, Orthotics, and Supplies Items **AGENCY:** CMS	CMS-6050-P	Issue Date: [Pending at OMB as of 12/24/2013] Due Date: NIHB File Date: Date of Subsequent Agency Action, if any:		**SUMMARY OF AGENCY ACTION:** This proposed rule would establish a prior authorization process for certain durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) items subject to frequent unnecessary utilization. **SUMMARY OF NIHB ANALYSIS:**

3.k.	**Methodology for Medicare Fee Schedule for DMEPOS** **ACTION: Proposed Rule** **NOTICE:** Methodology for Adjusting Medicare Fee Schedule Amounts for DMEPOS Using Information from Competitive Bidding Programs **AGENCY:** CMS	CMS-1460-ANPRM	Issue Date: [Pending at OMB as of 1/30/2014] Due Date: NIHB File Date: Date of Subsequent Agency Action, if any:		**SUMMARY OF AGENCY ACTION:** This advanced notice of proposed rulemaking would solicit public comments on the advantages or disadvantages of various methodologies for making national price adjustments for certain items and services based on information from the DMEPOS competitive bidding programs. The Social Security Act requires CMS to promulgate the methodology for making these price adjustments through rulemaking, and public comments obtained in response to the advanced notice of proposed rulemaking could help in determining the specific methodology to propose as part of this rulemaking effort. **SUMMARY OF NIHB ANALYSIS:**	
4.d.	**Medicare Hospital OPPS, Ambulatory Surgical Center Payment System, et al.** **ACTION: ~~Proposed~~ Final Rule** **NOTICE:** Medicare and Medicaid Programs: Hospital Outpatient Prospective Payment and Ambulatory Surgical Center Payment Systems and Quality Reporting Programs; Hospital Value-Based Purchasing Program; Organ Procurement Organizations;	CMS-1601-~~P~~FC	Issue Date: 7/19/2013 Due Date: ~~9/6/2013~~ 9/16/2013 NIHB File Date: Date of Subsequent Agency Action, if any: Issued correction/due date extension 9/6/2013;		**SUMMARY OF AGENCY ACTION:** This proposed rule would revise the Medicare hospital outpatient prospective payment system (OPPS) and the Medicare ambulatory surgical center (ASC) payment system for CY 2014 to implement applicable statutory requirements and changes arising from continuing experience with these systems. In this proposed rule, CMS describes the proposed changes to the amounts and factors used to determine the payment rates for Medicare services paid under the OPPS and those paid under the ASC payment system. In addition, this proposed rule would update and refine the requirements for the Hospital Outpatient Quality Reporting (OQR) Program, the ASC Quality Reporting (ASCQR) Program, and the Hospital Value-Based Purchasing (VBP) Program. This proposed rule also would change the conditions for coverage (CfCs) for organ procurement organizations (OPOs); revise the Quality Improvement Organization (QIO) regulations; change the Medicare fee-for-service Electronic Health Record (EHR) Incentive Program; and make changes relating to provider reimbursement determinations and appeals. http://www.gpo.gov/fdsys/pkg/FR-2013-07-19/pdf/2013-16555.pdf

	Quality Improvement Organizations; Electronic Health Records (EHR) Incentive Program; Provider Reimbursement Determinations and Appeals **AGENCY:** CMS		issued Final Rule 12/10/2013 Due Date: 1/27/2014		**SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 9/6/2013 issued a document (CMS-1601-CN) to correct technical errors that appeared in the proposed rule published in the 7/19/2013 FR. This document also extends the comment period for 10 days for the technical corrections set forth in this correcting document. http://www.gpo.gov/fdsys/pkg/FR-2013-09-06/pdf/2013-21849.pdf CMS on 12/10/2013 issued a final rule with comment period that revises the Medicare hospital outpatient prospective payment system (OPPS) and the Medicare ambulatory surgical center (ASC) payment system for CY 2014 to implement applicable statutory requirements and changes arising from continuing CMS experience with these systems. In this final rule with comment period, CMS describes the changes to the amounts and factors used to determine the payment rates for Medicare services paid under the OPPS and those paid under the ASC payment system. **In addition, this final rule with comment period updates and refines the requirements for the Hospital Outpatient Quality Reporting (OQR) Program, the ASC Quality Reporting (ASCQR) Program, and the Hospital Value-Based Purchasing (VBP) Program**. In addition, this final rule with comment period makes changes to the conditions for coverage (CfCs) for organ procurement organizations (OPOs); the Quality Improvement Organization (QIO) regulations; the Medicare fee-for-service Electronic Health Record (EHR) Incentive Program; and provider reimbursement determinations and appeals. CMS will consider comments on the payment classification assigned to HCPCS codes identified in Addenda B, AA, and BB of this final rule with comment period with the "NI" comment indicator and on other areas specified throughout this rule. http://www.gpo.gov/fdsys/pkg/FR-2013-12-10/pdf/2013-28737.pdf

The model of care includes as core services the provision of adult day health care and multidisciplinary team case management, with controlled access to and allocation of all health services. Participants receive physician, therapeutic, ancillary, and social support services in their residence or onsite at the adult day health center. The PACE programs must provide all Medicare and Medicaid covered services, including hospital, nursing home, home health, and other specialized services. Financing of this model occurs through prospective capitation of both Medicare and Medicaid payments. The information collection requirements ensure that only appropriate organizations become PACE organizations and that CMS has the information necessary to monitor the care provided to the frail, vulnerable population served. **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 10/8/2010 issued an extension of this PRA request. These standards, which include financial integrity provisions and protections against fraud and abuse, are consistent with Title I of ACA. This final rule also amends and adopts as final interim provisions set forth in the Amendments to the HHS Notice of Benefit and Payment Parameters for 2014 interim final rule, published in the Federal Register on March 11, 2013, related to risk corridors and cost-sharing reduction reconciliation. http://www.gpo.gov/fdsys/pkg/FR-2013-10-30/pdf/2013-25326.pdf **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 12/31/2013 issued a document (CMS-9957-CN; 9964-CN) that corrects an error that appeared in the final rule published in the 10/30/2013 FR. On page 65095, CMS added subpart M "Oversight and Program Integrity Standards for State Exchanges" to the regulations text at 45 CFR ` 155. Although subpart M applies to all Exchanges, including Small Business Health Options Program (SHOP) Exchanges, as a result of an oversight, CMS inadvertently omitted cross-referencing new subpart M at § 155.705(a) of the regulations in part 155, subpart H--Exchange Functions: Small Business Health Options Program. Accordingly, CMS has revised § 155.705(a) so that the regulations in part 155 consistently reflect its policy that all Exchanges, including SHOP Exchanges, must carry out the required functions of an Exchange set forth at subpart M. CMS has correcting § 155.705(a) by adding a cross reference to subpart M, so that the provision reads, "Exchange functions that apply to SHOP". The SHOP must carry out all the required functions of an Exchange described in this subpart and in subparts C, E, K, and M of this part, except: …" http://www.gpo.gov/fdsys/pkg/FR-2013-12-31/pdf/2013-31319.pdf

	NOTICE: BPT for Medicare Advantage and Prescription Drug Plans **AGENCY:** CMS		12/4/2012 NIHB File Date: Date of Subsequent Agency Action, if any: Issued revision 1/17/2013; issued revision 10/4/2013; issued revision 12/20/2013 Due Date: 2/19/2013; 12/3/2013; 1/21/2014		"bid" for each plan offered to Medicare beneficiaries for approval by the Centers for Medicare & Medicaid Services (CMS). MAOs and PDPs use the Bid Pricing Tool (BPT) software to develop their actuarial pricing bid, with the information provided in the BPT used as the basis for the plan's enrollee premiums and CMS payments for each contract year. The tool collects data such as medical expense development, administrative expenses, profit levels, and projected plan enrollment information. CMS reviews and analyzes the information provided in the BPT and decides whether to approve the plan pricing proposed by each organization. CMS is requesting to continue its use of the BPT for the collection of information for CY 2014 through CY 2016. **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 1/17/2013 issued a revision of this PRA request. http://www.gpo.gov/fdsys/pkg/FR-2013-01-17/pdf/2013-00858.pdf CMS on 10/4/2013 issued a revision of this PRA request. http://www.gpo.gov/fdsys/pkg/FR-2013-10-04/pdf/2013-24250.pdf CMS on 12/20/2013 issued a revision of this PRA request. http://www.gpo.gov/fdsys/pkg/FR-2013-12-20/pdf/2013-30334.pdf

This rule would offer States new flexibility in providing necessary and appropriate services to elderly and disabled populations. In particular, this rule would not require the eligibility link between HCBS and institutional care that exists under the Medicaid HCBS waiver program. This rule would describe Medicaid coverage of the optional State plan benefit to furnish HCBS and receive Federal matching funds. This proposed rule also would amend Medicaid regulations consistent with the requirements of ACA, which amended the Act to provide authority for a 5-year duration for certain demonstration projects or waivers, at the discretion of the HHS Secretary, when they involve individuals dually eligible for Medicaid and Medicare benefits. In addition, this rule would provide an additional limited exception to the general requirement that payment for services under a State plan go directly to the individual practitioner providing a service when the Medicaid program serves as the primary source of reimbursement for a class of individual practitioners. This exception would allow payments to other parties to benefit the providers by ensuring health, welfare, and training. Finally, this rule would amend Medicaid regulations to provide home and community-based setting requirements of ACA for the Community First Choice State plan option. **SUMMARY OF NIHB ANALYSIS:** None.	No comments filed.

The results of the study will appear in the final Report to Congress delivered by the HHS Secretary in 2015. This project will assist CMS and Congress in their understanding of: State CFC implementation plans, the effectiveness of the CFC Option on individuals receiving home- and community-based attendant care, and State spending on long-term services and supports. Researchers will request data from States approved for CFC via a data form and semi-structured interviews. Information obtained will improve understanding of CFC program design, the targeted patient population, and intended outcomes. **At this time, CMS has approved only a California program.** To provide comparative information to the HHS Secretary, researchers also will collect data from States that have decided not to pursue the CFC option. Researchers will analyze data and develop them into a report to Congress evaluating the effectiveness of the CFC option, the impact of the program on the physical and emotional health of participants, and the cost of community-based services versus those provided in institutional settings. http://www.gpo.gov/fdsys/pkg/FR-2014-01-17/pdf/2014-00916.pdf **SUMMARY OF NIHB ANALYSIS:** California Tribes and tribal health organizations might want to comment on this research and survey to ensure adequate consideration of AI/AN and I/T/U issues.

States must identify in their state plan the service for which the charge occurs, the amount of the charge, the basis for determining the charge, the basis for determining whether an individual cannot pay the charge and the way in which the individual will get identified to providers, and the procedures for implementing and enforcing the exclusions from cost sharing. CMS has revised the template for this 30-day comment period before submission to OMB for approval under CMS-10398. In addition, CMS seeks to discontinue CMS-R-53 to avoid duplicating requirements and burden. http://www.gpo.gov/fdsys/pkg/FR-2014-01-27/pdf/2014-01465.pdf **SUMMARY OF NIHB ANALYSIS:** This notice of a revision to a previously approved data collection might provide an opportunity to ensure that states have the procedures in place to ensure AI/ANs receive the cost-sharing protections established in the American Recovery and Reinvestment Act of 2009 (ARRA). ARRA § 5006 eliminates cost-sharing for AI/ANs who receive services from an Indian health care provider or through referral from an Indian health care provider. This notice indicates that "states must identify … the procedures for implementing and enforcing the exclusions from cost sharing" for all populations eligible for exclusions from cost-sharing. Although this notice does not reference AI/ANs directly, the ARRA

					protections are in place, and CMS last year published regulations that provide guidance on implementing the ARRA cost-sharing protections under Medicaid. For AI/ANs to receive the cost-sharing protections, 1) eligible AI/ANs need to be identified as eligible for the protections and 2) providers and MCOs need to be made aware that the certain AI/ANs are to be provided the cost-sharing protections. It appears that these two things are not occurring consistently across the country. This PRA notice might provide an opportunity to stimulate the development of procedures by states that indicate how the ARRA protections will be consistently implemented. Tribes and tribal organizations might want to consider recommending that TTAG work with CMS and/or a designated state to establish model procedures for 1) identifying AI/ANs eligible for the ARRA protections and 2) communicating this information to providers and MCOs. For example, in previous comments to CMS, tribal representatives recommended that states a) use self-attestation of status for the protections or b) access an electronic database for the identification of AI/ANs who qualify for the ARRA protections. These items could be incorporated into a set of model procedures. TTAG comments on CMS-2334--initially published on 1/22/2013 and published in final form on 7/15/2013--might provide a guide for tribal comments on CMS-R-53.

Some of the proposed changes would implement certain statutory provisions contained in ACA and other legislation. These proposed changes would apply to discharges occurring on or after 10/1/2013, unless otherwise specified in this proposed rule. This proposed rule also would update the rate-of-increase limits for certain IPPS-excluded hospitals that receive payments on a reasonable cost basis subject to these limits. The proposed updated rate-of-increase limits would apply to cost reporting periods beginning on or after 10/1/2013. In addition, this proposed rule would update the payment policies and the annual payment rates for the Medicare prospective payment system (PPS) for inpatient hospital services provided by long-term care hospitals (LTCHs) and implement certain statutory changes made by ACA. Generally, these proposed changes would apply to discharges occurring on or after 10/1/2013, unless otherwise specified in this proposed rule.

This final rule revises the Medicare hospital inpatient prospective payment systems (IPPS) for operating and capital-related costs of acute care hospitals to implement changes arising from continuing CMS experience with these systems. Some of the changes implement certain statutory provisions contained in ACA and other legislation. These changes will apply to discharges occurring on or after October 1, 2013, unless otherwise specified in this final rule. This final rule also updates the rate-of-increase limits for certain hospitals excluded from IPPS and paid on a reasonable cost basis subject to these limits. The updated rate-of-increase limits will apply to cost reporting periods beginning on or after October 1, 2013. This final rule also updates the payment policies and the annual payment rates for the Medicare prospective payment system (PPS) for inpatient hospital services provided by long-term care hospitals (LTCHs) and implements certain statutory changes applied to LTCH PPS by ACA. Generally, these updates and statutory changes will apply to discharges occurring on or after October 1, 2013, unless otherwise specified in this final rule.

As the CAH program has grown in scope of services and the number of providers, CMS has separated the burden associated with CAHs with distinct part units (DPUs) from the burden associated with CAHs without DPUs. Section 1820(c)(2)(E)(i) of the Social Security Act provides that a CAH can establish and operate a psychiatric or rehabilitation DPU. Each DPU can maintain as many as 10 beds and must comply with the hospital requirements specified in 42 CFR Subparts A, B, C, and D of part 482. Presently, 105 CAHs have rehabilitation or psychiatric DPUs. The burden associated with CAHs that have DPUs continues to fall under CMS-R-48, along with the burden for all 4,890 accredited and non-accredited hospitals. http://www.gpo.gov/fdsys/pkg/FR-2013-12-20/pdf/2013-30337.pdf **SUMMARY OF NIHB ANALYSIS:** No comments recommended.

Using information available at the time of enrollment, the Exchange determines whether the individual meets the income and other requirements for advance payments and the amount of the advance payments available pay premiums. Under section 1412, advance payments occur periodically to the issuer of the QHP in which the individual enrolls. Section 1402 provides for the reduction of cost sharing for certain individuals enrolled in a QHP through an Exchange, and section 1412 provides for the advance payment of these reductions to issuers. The statute directs issuers to reduce cost sharing for essential health benefits for individuals who have household incomes between 100 and 400 percent of the federal poverty level (FPL), enroll in a silver-level QHP through an individual market Exchange, and qualify for advance payments of the premium tax credit. HHS will use the data collection to make payments or collect charges from issuers under the following programs: advance payments of the premium tax credit, advanced cost-sharing reductions, and Marketplace user fees. HHS will use the template to make payments in January 2014 and for a number of months thereafter. http://www.gpo.gov/fdsys/pkg/FR-2013-12-27/pdf/2013-31015.pdf

In some instances, health insurance issuers in the individual and small group markets will cancel policies that do not include the new protections for policy or plan years beginning in 2014. Because some consumers have found other coverage options more expensive than their cancelled plans or policies, President Obama has announced a transition period allowing for the renewal of canceled plans and policies between 1/1/2014 and 10/1/2014, under certain circumstances. Some states have adopted the transitional policy, enabling health insurance issuers to renew their existing plans and policies. Some health insurance issuers will not renew canceled plans or policies. To ensure that consumers who will have their policies canceled can keep affordable health insurance coverage, this document reminds consumers in the individual market of the many options already available to them and clarifies another option for consumers in the individual market. http://www.cms.gov/CCIIO/Resources/Regulations-and-Guidance/Downloads/cancellation-consumer-options-12-19-2013.pdf **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 1/3/2014 issued guidance that includes questions and answers to clarify 12/19/2013 guidance on options available for consumers with cancelled policies. http://www.cms.gov/CCIIO/Resources/Regulations-and-Guidance/Downloads/cancellation-consumer-options-faq-01-03-2014.pdf This guidance restates instructions for individuals who have canceled policies and seek to purchase catastrophic coverage and/or avoid a tax penalty.

31.v.	**Instructions for the Application for Indian-Specific Exemptions** **ACTION: Guidance** **NOTICE:** Instructions for the Application for Exemption for American Indians and Alaska Natives and Other Individuals who are Eligible to Receive Services from an Indian Health Care Provider **AGENCY:** CMS	CMS (no reference number) **See also 31.q.**	Issue Date: 1/10/2014 Due Date: 1/13/2014 TTAG File Date: 1/13/2014 Date of Subsequent Agency Action, if any:	TTAG response:	**SUMMARY OF AGENCY ACTION:** On 12/20/2013, CMS forwarded two draft documents that it intends to include with the guidance and instructions to the Application for Exemption from the Shared Responsibility Payment for American Indians and Alaska Natives (AI/ANs). These documents pertain to exemptions available to members of Indian Tribes, which includes members of federally recognized Indian tribes and Alaska Native shareholders in a regional or village corporation established under the Alaska Native Claims Settlement Act (ANCSA), as well as to individuals eligible for services from an Indian health care provider, from the shared responsibility payment established under ACA for failure to obtain minimum essential coverage. On 1/10/2014 (following an ACA policy subcommittee discussion on the issue), CMS sent a request for review of a revised version of these instructions. The revised instructions combined the two previously forwarded documents into one document. **SUMMARY OF TTAG ANALYSIS:** These instructions are "critical to the basic ability of Exchanges to determine eligibility for and issue certificates of exemption and will also assist Exchanges, HHS, and IRS in ensuring program integrity and quality improvement." In addition, because the Indian-specific exemptions reflect the Federal trust responsibility toward AI/ANs, CMS has an obligation to establish an accurate, user-friendly, and easily understood application process that minimizes the burden on the applicant. These instructions require some revisions to improve the completeness and accuracy of the information provided by applicants for the Indian-specific exemptions.	See Table C.
31.w.	**Cost-Sharing Reductions for Contract Health Services (Draft)** **ACTION: Guidance** **NOTICE:** Cost-Sharing Reductions for Contract Health Services (Draft) **AGENCY:** CCIIO	CCIIO (no reference number)	Issue Date: 1/8/2014 Due Date: 1/14/2014 NIHB File Date: 1/14/2013 Date of	TTAG response:	**SUMMARY OF AGENCY ACTION:** On the TTAG conference call on 1/8/2014, CMS asked TTAG to provide comments on draft guidance to QHPs pertaining to cost-sharing protections for members of Indian tribes through Contract Health Services (CHS). The guidance takes the form of a Q&A document. CMS requested that TTAG submit comments by 1/14/2014. **SUMMARY OF NIHB ANALYSIS:** The language included in the guidance is not consistent with the statutory definition of "contract health service," found at 25 U.S.C. § 1603(5), and there is a need for the addition of some language to the last paragraph to clarify that the referral eliminates any cost-sharing, including at the time of initial service. These proposed regulations affect individual taxpayers who might have liability for the shared responsibility payment for not maintaining minimum essential coverage. This document also provides notice of a public hearing (scheduled for 5/21/2014 at 10 a.m. ET) on these proposed regulations. IRS must receive outlines of topics for discussed at the public hearing by 4/28/2014. http://www.gpo.gov/fdsys/pkg/FR-2014-01-27/pdf/2014-01439.pdf **SUMMARY OF NIHB ANALYSIS:** This proposed rule provides a detailed review of MEC requirements, as well as exemptions from the tax penalty for not maintaining MEC. This proposed rule advances the NIHB recommendation on permitting individuals who qualify for services from Indian health care providers to apply for an exemption on a Federal income tax return. The preamble to this proposed rule states (79 FR 4306-7): "Consistent with guidance released by the Secretary of HHS on October, 28, 2013, the proposed regulations provide that an individual who enrolls in a plan through an Exchange during the open enrollment period for coverage for 2014 may claim a hardship exemption for months in 2014 prior to the effective date of the individual's coverage without obtaining a hardship exemption certification from an Exchange [NOTE: The HHS action only involved the release of a notice (Notice 2014-10), not a formal regulation]. If additional situations are identified where an individual should be allowed to claim a hardship exemption without obtaining a hardship exemption certification from an Exchange, the Secretary of HHS and the Secretary of the Treasury will continue to coordinate guidance. To facilitate issuing guidance in this situation, the proposed regulations provide that a taxpayer may claim a hardship exemption on a return if the Secretary of HHS issues published guidance of general applicability describing the hardship and indicating that the hardship can be claimed on a Federal income tax return pursuant to guidance published by the Secretary of the Treasury, and the Secretary of

					the Treasury issues published guidance of general applicability allowing an individual to claim such hardship exemption on a Federal income tax return without obtaining a hardship exemption from an Exchange." Clarification is needed on what additional action Treasury will need to take to permit an individual to apply for any additional exemption for which HHS might stipulate individuals can apply through a Federal income tax return. Or specifically, when (hopefully) HHS indicates that individuals eligible for services from an Indian health care provider can apply for the exemption on a Federal income tax return, what additional action will Treasury need to take before the individuals can apply. NIHB and/or TTAG and others should submit comments to support the IRS action to which the above analysis refers.

The proposed funding methodology indicated below, though, provides funding adjustments that account for AI/AN choosing bronze plans and the higher cost to the Federal government for the cost-sharing reductions for AI/AN that result. These higher Federal subsidy costs would be factored into the calculation of the payment level from the Federal government to states electing the Basic Health Program option. Although the final rule for CMS-2380-P has not yet been published, the proposed funding methodology outlined below could support a policy whereby the Federal government, if not requiring, encourages States to limit premium contributions for AI/AN to the bronze-plan equivalent. This may be accomplished by CMS making available to states that elect	See Table C (**see also 39.b.**).

					to limit premiums for AI/AN the higher Federal payments. For states that do not elect to limit premiums for AI/AN to the equivalent of the bronze plan premium, CMS could withhold payment of the higher amounts. The following are excerpts from the published notice-- **77402 Federal Register** / Vol. 78, No. 246 / Monday, December 23, 2013 / Proposed Rules "We further propose a separate calculation that includes different adjustments for American Indian/Alaska Native BHP enrollees, as described in section E." **Federal Register** / Vol. 78, No. 246 / Monday, December 23, 2013 / Proposed Rules **77405** "For American Indian/Alaska Native BHP enrollees, we propose to use the lowest cost bronze plan as the basis for the reference premium as described further in section E." **Federal Register** / Vol. 78, No. 246 / Monday, December 23, 2013 / Proposed Rules **77409** *"E. Adjustments for American Indians and Alaska Natives* There are several exceptions made for American Indians and Alaska Natives enrolled in QHPs through an Exchange to calculate the PTC and CSRs. Thus, we propose adjustments to the payment methodology described above to be consistent with the Exchange rules. We propose the following adjustments: 1. We propose that the adjusted reference premium for use in the CSR portion of the rate would use the lowest cost bronze plan instead of the second lowest cost silver plan, with the same adjustments for the premium trend factor and population health factor. American Indians and Alaska Natives are eligible for CSRs with any metal level plan, and thus we believe that eligible persons would be more likely to select a bronze level plan instead of a silver level plan. (It is important to note that this would not change the PTC, as that is the maximum possible PTC payment, which is always based on the second lowest cost silver plan.) **We invite comments as to whether** other assumptions are

					warranted about the distribution, among bronze plans charging various premiums, of American Indian and Alaska Native BHP-eligible individuals. 2. We propose that the actuarial value for use in the CSR portion of the rate would be 0.60 instead of 0.70, which is consistent with the actuarial value of a bronze level plan. 3. We propose that the induced utilization factor for use in the CSR portion of the rate would be 1.15, which is consistent with the proposed HHS Notice of Benefit and Payment Parameters for 2015 induced utilization factor for calculating advance CSR payments for persons enrolled in bronze level plans and eligible for CSRs up to 100 percent of actuarial value. 4. We propose that the change in the actuarial value for use in the CSR portion of the rate would be 0.40. This reflects the increase from 60 percent actuarial value of the bronze plan to 100 percent actuarial value, as American Indians and Alaska Natives are eligible to receive CSRs up to 100 percent of actuarial value."

To calculate these amounts for each state, CMS needs the reference premiums for the second-lowest-cost silver plans (SLCSPs) in each geographic area in a state, as SLCSPs serve as a basic unit in the calculation of PTCs and CSRs under the Exchanges. In addition, the reference premiums for these SLCSPs serve as critical components in the BHP payment methodology to estimate what PTCs and CSRs would have received in payments. Similarly, **CMS needs to collect reference premiums for the lowest-cost bronze plans to appropriately account for CSR calculations for AI/ANs**. Reference premiums serve as foundational inputs into the BHP payment methodology. CMS has the necessary information to determine these reference premiums for states

CMS selected eight states to participate in this demonstration: Maine, Vermont, Rhode Island, New York, Pennsylvania, North Carolina, Michigan, and Minnesota. CMS proposes to conduct this provider survey to understand how participating practice structures and functions vary, particularly with respect to their adoption of different components of the PCMH model of care. Researchers evaluating the MAPCP Demonstration plan to combine these survey data with claims data to conduct statistical analyses that identify which particular medical home care processes relate to the largest gains in health care quality and reductions in health care cost trends. http://www.gpo.gov/fdsys/pkg/FR-2013-07-12/pdf/2013-16740.pdf **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 1/29/2014 issued a new version of this PRA request. The 60-day Federal Register notice published on 12/4/2012 (77 FR 71801), pertained to the 2012 MLR Annual Reporting Form and Instructions, and the comment period closed on 2/4/2013. CMS received a total of 4 public comments on 25 specific issues regarding the notice of the revised MLR PRA package. Most of the comments addressed clarifying the instructions or correcting typographical errors, the removal of calculated cells and the ability of issuers to copy and paste data onto the form, and the inclusion of a credibility indicator for small issuers to eliminate the need for small issuers to fill out the complete MLR reporting form. CMS have taken into consideration all of the proposed suggestions and has made changes to the 2012 MLR Annual Reporting Form and Instructions. http://www.gpo.gov/fdsys/pkg/FR-2013-02-22/pdf/2013-04015.pdf CMS on 11/22/2013 issued a revision of this PRA request. Based upon experience in the MLR data collection and evaluation process, CMS has updated its annual burden hour estimates to reflect the actual numbers of submissions, rebates, and rebate notices. The 2013 MLR Reporting Form and instructions also reflect changes for the 2013 reporting year and beyond set forth in the March 2012 update to 45 CFR 158.120(d)(5) regarding aggregation of student health plans on a nationwide basis, similar to expatriate plans. In addition, the instructions address recent applicability guidance issued by the Departments of Labor and Treasury and HHS concerning expatriate plan reporting prior to plan years ending before or on 12/31/2015. In 2014, issuers likely will send fewer notices and rebate checks to policyholders and subscribers, resulting in a reduction in burden. However, the requirement to report data on student health plans will increase burden for some issuers. CMS estimates a net reduction in total information collection burden. http://www.gpo.gov/fdsys/pkg/FR-2013-11-22/pdf/2013-28049.pdf CMS on 1/31/2014 issued a revision of this PRA request. According to CMS, the 60-day notice published in the 11/22/2013 FR (78 FR 70059) pertained to the 2013 MLR Annual Reporting Form and Instructions, with comments closing on 1/21/2014. CMS received a

					total of 2 public comments on 12 specific issues regarding the notice of the revised MLR PRA package. Most of the comments addressed clarifying of the instructions, updates for recent guidance issuance, treatment of Student Health Plans, treatment of ACA fees, adjusted MLR standard experience aggregation, annual mini-med multipliers for credibility determination, reporting for both QIA and non-claims costs, and reporting requirements for businesses in run-off. CMS has considered all of the proposed suggestions and has revised the 2013 MLR Annual Reporting Form and Instructions. http://www.gpo.gov/fdsys/pkg/FR-2014-01-31/pdf/2014-02061.pdf

This document indicates that certain insurers, including Blue Cross/Blue Shield (BC/BS) plans, will lose tax preferences if they fail to meet MLR standards. This document takes a position contrary to the regulation issued by CCIIO (in implementing PHSA § 2718) on costs allowed in the numerator of the MLR calculation. For plans covered under section 833 of the Internal Revenue Code (such as BC/BS plans), the numerator of the MLR calculation cannot include "activities that improve health care quality." **SUMMARY OF SUBSEQUENT AGENCY ACTION:** This document contains final regulations that provide guidance to Blue Cross and Blue Shield organizations, and certain other qualifying health care organizations, on computing and applying the medical loss ratio added to the Internal Revenue Code by ACA. http://www.gpo.gov/fdsys/pkg/FR-2014-01-07/pdf/2014-00092.pdf

To ensure that MEPS-IC can capture important changes in the employer-sponsored health insurance market resulting from the implementation of ACA, AHRQ researched and proposed additions to the 2014 survey questionnaires based on the provisions of the law. Many of these proposed additions involve the implementation of the Small Business Health Options Program (SHOP), through which small employers can purchase health insurance beginning in 2014. In addition to new questions recommended for 2014, AHRQ proposes to delete several questions in the 2013 survey to minimize the burden on survey respondents. These questions have less analytic value than others, have poor response rates, or no longer apply due to changes made under ACA. A list of the proposed additions and deletions appears in this notice. Specifically, section 3004(c) added section 1814(i)(5) to the Social Security Act (the Act) to establish a quality reporting program for hospices. This program requires hospices to submit quality data in a time, form and manner specified by the HHS Secretary. CMS seeks to explore how hospices respond to the new quality reporting program (QRP) and its measures. CMS believes in the importance of understanding early trends in outcomes, making adjustments as needed to enhance the effectiveness of QRP, seeking opportunities to minimize provider burden, and ensuring the meaningfulness of the program to providers. The methodology employed in the evaluation uses qualitative interviews (as opposed to quantitative statistical methods). In consultation with research experts, CMS has decided that using a rich, contextual approach to evaluate the process and success of QRP will prove most beneficial at this time. The information collected will help inform CMS about QRP-related experiences, such as program impact related to quality improvement, burden, process-related issues, and education. This information also will inform future measurement development for the hospice QRP, future steps related to data validation, and future monitoring and evaluation. http://www.gpo.gov/fdsys/pkg/FR-2013-11-22/pdf/2013-28049.pdf **SUMMARY OF NIHB ANALYSIS:**

Under the statute and the interim final regulations, a group health plan, or a health insurance issuer offering group or individual health insurance coverage, generally must not rescind coverage except in the case of fraud or an intentional misrepresentation of a material fact. This standard applies to all rescissions, whether in the group or individual insurance market or self-insured coverage. The rules also apply regardless of any contestability period of the plan or issuer. PHS Act section 2712 adds a new advance notice requirement when health plans or health insurance issuers rescind coverage where still permissible. Specifically, the second sentence in section 2712 provides that plans or issuers cannot cancel coverage unless they provide prior notice, and then only as permitted under PHS Act sections 2702(c) and 2742(b). Under the interim final regulations, even if plans or issuers provide prior notice, rescission can occur only in cases of fraud or an intentional misrepresentation of a material fact as permitted under the cited provisions. The interim final regulations require health plans or health insurance issuers to provide at least 30 days advance notice to an individual before they can rescind coverage may be rescinded, regardless of whether the rescission involves group or individual coverage; whether, in the case of group coverage, the rescission involves insured or self-insured coverage; or whether the rescission applies to an entire group or only to an individual within the group. http://www.gpo.gov/fdsys/pkg/FR-2013-11-29/pdf/2013-28568.pdf **SUMMARY OF NIHB ANALYSIS:**

The statute provides that health insurance issuers must submit to the HHS Secretary and the applicable state justifications for unreasonable premium increases prior to the implementation of the increases. Section 2794 also specifies that, beginning with plan years starting in 2014, the HHS Secretary, in conjunction with states, shall monitor premium increases of health insurance coverage offered through an Exchange and outside of an Exchange. Section 2794 directs the HHS Secretary to ensure the public disclosure of information and justification relating to unreasonable rate increases. The regulation therefore develops a process to ensure the public disclosure of all such information and

					justification. Section 2794 requires that health insurance issuers submit justification for an unreasonable rate increase to both CMS and the relevant state prior to its implementation. Additionally, section 2794 requires the HHS Secretary, in conjunction with states, to monitor rate increases effective in 2014 (submitted for review in 2013). To those ends, the regulation establishes various reporting requirements for health insurance issuers, including a Preliminary Justification for a proposed rate increase, a Final Justification for any rate increase determined unreasonable by a state or CMS, and a notification requirement for unreasonable rate increases that the issuer will not implement. On 11/14/ 2013, CMS issued a letter to State Insurance Commissioners outlining transitional policy for non-grandfathered coverage in the small group and individual health insurance markets. If permitted by applicable state authorities, health insurance issuers can continue coverage that would otherwise get terminated or cancelled, and affected individuals and small businesses can re-enroll in such coverage. Under this transitional policy, non-grandfathered health insurance coverage in the individual or small group market renewed for a policy year starting between 1/1/2014 and 10/1/2014 will remain in compliance with certain market reforms if it meets certain specific conditions. These transitional plans remain subject to the requirements of section 2794 but not 2701 (market rating rules), 2702 (guaranteed availability), 2704 (prohibition on health status rating), 2705 (prohibition on health status discrimination), and 2707 (requirements of essential health benefits). In addition, because the single risk pool (1311(e)) depends on all of the aforementioned sections (2701, 2702, 2704, 2705, and 2707), the transitional plans remain exempt from the single risk pool. CMS designed the Unified Rate Review Template and system exclusively for use with the single risk pool plan, and any attempt to include non-single risk pool plans in the Unified Rate Review template or system will create errors, inaccuracies, and limitations that would prevent the effectiveness of reviews of both sets of non-grandfathered plans (single risk pool and transitional). For these many reasons, CMS requires issuers with transitional plans experiencing rate increases subject to review to use the Rate Review Justification system and templates required and utilized prior to 4/1/2013. http://www.gpo.gov/fdsys/pkg/FR-2013-12-27/pdf/2013-30994.pdf **SUMMARY OF NIHB ANALYSIS:** No comments recommended.

In response, CMS adopted a three-phase approach to evaluate the impact of wellness programs on Medicare beneficiary health, utilization, and costs to determine whether broader participation in wellness programs could lower future growth in program spending. Phase I consisted of a comprehensive literature review and environmental scan to identify a list of wellness programs for further evaluation. Phase II involved a retrospective evaluation of 10 wellness programs in the targeted intervention areas mentioned above. This evaluation sought to use Medicare claims data to assess the impact of 10 wellness programs on beneficiary outcomes, including health service utilization and medical costs. The findings in Phase II indicated that several wellness

					programs demonstrated the potential to reduce medical costs among participating beneficiaries. In Phase III, CMS will conduct an evaluation to round out its understanding of how wellness programs affect Medicare beneficiaries and what cost saving opportunities exist for the program. This evaluation will (1) describe the overall distribution of readiness to engage with wellness programs in the Medicare population, (2) better adjust for selection biases of individual programs and interventions using beneficiary level survey data, (3) evaluate program impacts on health behaviors, self-reported health outcomes, and claims-based measures of utilization and costs, and (4) better describe program implementation, operations, and cost in relation to the expected benefits. The results of these analyses will inform wellness and prevention activities in the future. To achieve the goals of this project, CMS will conduct a nationally representative survey of Medicare beneficiaries to assess their readiness to participate in community-based wellness programs. CMS will generate national estimates of Medicare beneficiary demand for wellness services and benefits from this survey. In addition, CMS will partner with evidence-based wellness programs for the purposes of enrolling an estimated 2,000 participants per program. CMS will conduct surveys of program participants to assess program impacts on health and behavior. http://www.gpo.gov/fdsys/pkg/FR-2013-11-22/pdf/2013-28049.pdf **SUMMARY OF NIHB ANALYSIS:**

In addition, Medicare does not require a hospital or CAH to have a physician on-site at all times, although the program does require a hospital or CAH to have the ability to provide basic elements of emergency care to its patients. However, patients might consider an ownership interest by their referring physician, the presence of a physician on-site, or both important factors in their decisions about where to seek hospital care. Accordingly, patients should know about the physician ownership of a hospital, whether a physician remains in the hospital at all times, and hospital plans to address patient emergency medical conditions in the absence of a physician. The disclosures seek to increase the transparency of hospital ownership and operations to patients as they make decisions about receiving hospital care. http://www.gpo.gov/fdsys/pkg/FR-2013-12-13/pdf/2013-29725.pdf **SUMMARY OF NIHB ANALYSIS:**

Originally authorized under the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA), RCHD provides enhanced reimbursement for inpatient services to small rural hospitals that do not qualify as critical access hospitals (CAHs). RCHD seeks to increase the capability of these hospitals to meet the health care needs of rural beneficiaries in their service areas. As a demonstration, RCHD aims to provide information to assess the feasibility and advisability of establishing a new category of rural community hospitals for reimbursement policy. For the original demonstration, MMA required a Report to Congress six months after the end of the demonstration, a requirement unchanged by ACA. An initial evaluation, conducted between 2007 and 2011 in preparation for a Report to Congress, focused on the 17 hospitals that had participated at some point between October 2004 and March 2011. CMS received findings from this evaluation in the Interim Evaluation Report of the Rural Community Hospital Demonstration (an unpublished report). The current five-year evaluation of RCHD will extend and build on the prior evaluation and produce the Report to Congress required by the MMA. It will assess the impact of the RCHD in meeting its goals: to enable hospitals to achieve community benefits, such

					as improved services for their communities (especially Medicare beneficiaries); meet their individual strategic goals; and improve the financial solvency and viability of the participating hospitals. In addition, the evaluation will determine the feasibility and advisability of creating a new payment category of rural hospitals. To achieve this objective, the evaluation will examine how RCHD hospitals responded to payment options and assess how the costs to Medicare under RCHD compare to existing alternative payment options. The evaluation also will summarize the characteristics of the markets served by RCHD hospitals, including beneficiary proximity to inpatient providers and competition among providers in the area. CMS will use the information to assess the implications of expanding the RCHD payment system to hospitals in various market environments. In addition, the evaluation will examine the potential costs of expanding the RCHD payment methodology, accounting for alternative approaches to targeting rural hospitals. http://www.gpo.gov/fdsys/pkg/FR-2013-11-15/pdf/2013-27305.pdf **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 1/23/2014 issued a new version of this PRA request. http://www.gpo.gov/fdsys/pkg/FR-2014-01-23/pdf/2014-01208.pdf This demonstration provides enhanced reimbursement rates for inpatient services to small rural hospitals that do not qualify as critical access hospitals (CAHs). Specifically, section 3004(a) added section 1886(m)(5) to the Social Security Act (the Act) to establish a quality reporting program for LTCHs. This program requires LTCHs to submit quality data in a time, form and manner specified by the HHS Secretary. CMS seeks to explore how LTCHs respond to the new quality reporting program (QRP) and its measures. CMS believes in the importance of understanding early trends in outcomes, making adjustments as needed to enhance the effectiveness of QRP, seeking opportunities to minimize provider burden, and ensuring the meaningfulness of the program to providers. The methodology employed in the evaluation uses qualitative interviews (as opposed to quantitative statistical methods). In consultation with research experts, CMS has decided that using a rich, contextual approach to evaluate the process and success of QRP will prove most beneficial at this time. The information collected will help inform CMS about QRP-related experiences, such as program impact related to quality improvement, burden, process-related issues, and education. This information also will inform future measurement development for the LTCH QRP, future steps related to data validation, and future monitoring and evaluation. http://www.gpo.gov/fdsys/pkg/FR-2013-11-22/pdf/2013-28049.pdf **SUMMARY OF NIHB ANALYSIS:**

The Emergency Medical Treatment and Active Labor Act (EMTALA), however, requires IMDs that participate in Medicare to provide treatment for psychiatric emergency medical conditions (EMCs), even for Medicaid patients. Section 2707 of ACA directs the HHS Secretary to conduct and evaluate a demonstration project to determine the impact of providing payment under Medicaid for inpatient services delivered by private IMDs to individuals with emergency psychiatric conditions between the ages of 21 and 64. CMS will use the data to evaluate the Medicaid Emergency Psychiatric Demonstration (MEPD) in accordance with the ACA mandates. Congress will use this evaluation to determine whether to continue or expand the demonstration. If the demonstration expands, the data collected will help inform both CMS and its stakeholders about possible effects of contextual factors and important procedural issues to consider in the expansion, as well as the likelihood of various outcomes. http://www.gpo.gov/fdsys/pkg/FR-2013-07-26/pdf/2013-17985.pdf **SUMMARY OF NIHB ANALYSIS:** **SUMMARY OF SUBSEQUENT AGENCY ACTION:** CMS on 12/6/2013 issued a new version of this PRA request. Phase IIIB includes (1) field testing and a national study to validate the core competency set among the workforce; (2) establishing the core competency set in the public domain; and (3) providing technical assistance to promote the development of specializations within each sector. The survey serves as item 1 of Phase IIIB. The DSW RC, states, direct service agencies, and other partners interested in implementing the core competencies will use the data collected in the survey. The target populations for the surveys include DSW professionals, front line supervisors and managers, agency administrators and directors, participants and families/guardians, and self-advocates. This survey seeks to confirm and validate the relevance and applicability of the DSW RC set of core competencies to actual direct service workers, their employers, and their

188.	**Emergency Preparedness Requirements** **ACTION: Proposed Rule** **NOTICE:** Medicare and Medicaid Programs; Emergency Preparedness Requirements for Medicare and Medicaid Participating Providers and Suppliers **AGENCY:** CMS	CMS-3178-P	Issue Date: 12/27/2013 **Due Date: 2/15/2013** NIHB File Date: Date of Subsequent Agency Action, if any:		**SUMMARY OF AGENCY ACTION:** This proposed rule would establish national emergency preparedness requirements for Medicare- and Medicaid-participating providers and suppliers to ensure that they adequately plan for both natural and man-made disasters and coordinate with federal, state, tribal, regional, and local emergency preparedness systems. It also would ensure that these providers and suppliers adequately prepare to meet the needs of patients, residents, clients, and participants during disasters and emergency situations. CMS proposes emergency preparedness requirements that 17 provider and supplier types must meet to participate in the Medicare and Medicaid programs. Since existing Medicare and Medicaid requirements vary across the types of providers and suppliers, CMS also proposes variations in these requirements. CMS has based these variations on existing statutory and regulatory policies and differing needs of each provider or supplier type and the individuals to whom they provide health care services. Despite these variations, this proposed rule would provide generally consistent emergency preparedness requirements, enhance patient safety during emergencies for persons served by Medicare- and Medicaid-participating facilities, and establish a more coordinated and defined response to natural and man-made disasters. http://www.gpo.gov/fdsys/pkg/FR-2013-12-27/pdf/2013-30724.pdf **SUMMARY OF NIHB ANALYSIS:** This proposed rule, which seeks to ensure the availability of health care during emergencies, would impose substantial new emergency and disaster preparedness requirements on various Medicare and Medicaid providers and suppliers in an effort to safeguard human resources, ensure business continuity, and protect physical resources. Of note, this proposed rule directs providers to "comply with all applicable Federal and State emergency preparedness requirements" and requires a communications plan that complies with federal and state law, provisions potentially imposing additional emergency preparedness requirements that Tribes currently do not

			topics, and by adopting these recommendations, CMS will have the information necessary to add the following individual QRS measures: • Percentage of AI/AN members who are aware of the availability of I/T/Us as in-network providers in the QHP; • Percentage of claims denied by the QHP, in full or in part, for services provided at an I/T/U; • Percentage of AI/AN members who have ever had cost sharing in any circumstances in which ACA exempts them; • Percentage of AI/AN members who have entered disputes with the QHP over cost sharing, as well as the percentage of resolved disputes; and • Percentage of AI/AN members who positively rate their experience with QHP personnel. 3. **AI/AN-Specific CAHPS Measures**: QRS, as proposed, includes 13 Consumer Assessment of Healthcare Providers and Systems (CAHPS) survey measures, but these measures might not reflect the special circumstances and needs of AI/ANs; the American Indian Survey--which CAHPS developed in 2004-2005 to help establish benchmarks for AI/AN patient experiences, whether at I/T/U or non-I/T/U facilities--produces a number of AI/AN-specific measures, and CMS should add these measures as individual QRS measures.

184.a.	**Clinical Laboratory Improvement Amendments Regulations** **ACTION: Request for Comment** **NOTICE:** Clinical Laboratory Improvement Amendments (CLIA) Regulations **AGENCY:** CMS	CMS-R-26 Issue Date: 10/4/2013 Due Date: 12/3/2013 NIHB File Date: None Date of Subsequent Agency Action, if any: Issued extension 12/6/2013 Due Date: 1/6/2014 ANTHC File Date: 1/6/2014	ANTHC recommendations-- 1. **Burden Estimates**--CMS should: • a. Increase the burden estimates assigned to enrollment and successful participation in proficiency testing (PT) to reflect practical experience and to recognize special circumstances (e.g. limited federal funding, remote lab sites, and transient employees) affecting IHS and tribal health programs; and • b. Clarify the burden estimate for each step in the PT process (i.e. receipt and handling, testing, reporting, and director review/analysis) to facilitate the accuracy of information collection pertaining to PT, as without these changes, the Agency will continue to underestimate the difficulty and time required for laboratories (particularly IHS and tribal facilities) to comply with reporting requirements. 2. **CLIA Reporting Process**--CMS should initiate a formal rulemaking procedure with an associated Notice and Comment period to substantively amend and streamline the CLIA reporting process; through this procedure, to lessen the burden of IHS and tribal facilities in meeting competency assessment requirements and increase the relevance of these requirements to evaluate competency of all testing personnel, the Agency should: • a. Develop an alternate option for competency	No subsequent Agency action taken (as of 1/31/2014).
